A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation®2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – **IMMEDIATELY** discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation®2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

GETTING STARTED

Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned on. Press the **RESET** button. When the power indicator lights up, press the **Open** button and the disc tray will open. Place the WRECKLESS™ disc on the disc tray with the label side facing up. Press the **Open** button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

Memory Card

WRECKLESS™ requires a memory card (8MB) (for PlayStation®2) to save your game. A saved game's data takes up 187 KB. You can obtain a memory card through the retailer where you purchased your PlayStation®2 game console or this game.

To access your memory card, insert your memory card into MEMORY CARD slot 1.

QUICK START

I know, I know... you coughed up your cash and you don't want to read the manual, you just want to get in the car and start tearing up the streets. We can't blame you.

So here's the fastest way onto the streets of Hong Kong.

Assuming you've already got the game loaded, you'll see the title screen.

Follow these steps:

1. Choose **New Game**.
2. On the Scenario Select screen, choose either **Dragon Adventure** or **Spy Story**.
3. Select the appropriate **Mission** and **Difficulty Level**.
4. Select your **Vehicle**. Note: To select an option, use the X button. To cancel, use the △ button.

WELCOME TO HONG KONG

Welcome to Hong Kong. Mystery and intrigue; money and power; East and West: Hong Kong has it all. Being one of the most prominent cities in all of Asia, and not without reason, this island country is just bustling with energy and vitality. Stroll along Victoria Harbour or take a refreshing ride on the enchanting above-ground street cars and really soak up the sights, sounds and attitude that make Hong Kong stand alone. Feel a little hungry? Try the mango pudding and dim sum; they may convince you to stay for good!

The Yakuza are loose on the streets and out of control. The good honest citizens of Hong Kong are being terrorized and the police department seems incapable of controlling the Yakuza. Public safety is at an all-time low. SOMEONE needs to do SOMETHING!

You're on the scene to answer the call of the city and stop the madness! Take the role of the elite police unit the **Dragons** or as a couple of **Spies** hired to beat the Yakuza and to take down Tiger Takagi—the head of the Hong Kong Yakuza.

HOW TO PLAY

Put simply, get in a vehicle and FLOOR IT!

Choose one of the two scenarios and pick one of the available missions. Each mission objective is explained before you go on to pick your vehicle. Before some of the missions, you'll see a short scene explaining the situation. Then, as the mission starts,

you'll be given instructions about what needs to be accomplished. Complete each main objective successfully and you'll move on to the next set of missions.

Vehicle Selection

Once you've selected a mission, you get to choose which vehicle you'd like to trash, I mean use. Use the **directional buttons** to choose the vehicle and then press the **X** button to select it. To begin with, each of the scenarios has three different vehicles, more vehicles will unlock as you complete missions. But beware, not all vehicles are suitable for all missions.

THE GAME SCREEN

Time Remaining: Finish the level before this counter reaches zero.

Map: Shows the area around your car. The yellow arrow in the center of the map indicates your car and the direction you're travelling. The red dots show the enemy cars. As you approach an enemy or target area, the map will zoom in. Remember, there is more than one way to get from point A to point B, and time is precious.

Player's Car: Your car, amusingly enough.

Enemy Car: One of the many enemy cars that need to be taken out.

Speed: Shows your current speed.

Time Taken: The time taken so far on this mission.

Target Direction: Shows the direction of the enemy or goal.

Note: This shows the direct route (as the crow flies). It will NOT guide you around the streets.

Damage Meter: Objective's remaining energy.

Rockets: Shows how many rockets you have left.

Adrenaline: Shows your number of remaining adrenaline boosts.

BONUS MISSIONS, CHEATS AND CARS

Sub-Missions

As well as the main objective, each mission has a smaller sub-mission. These are small tasks that can be completed as you try to finish your main objectives. Completing the sub-missions successfully will help you unlock the extra features that are locked when you first begin to play.

Failing to complete a sub-mission will NOT hinder your progress through the main game, so don't worry!

Before you play each mission, pay careful attention to see what the current **SUB-MISSION** is, you will see the description written below the main mission description.

At the end of the mission you will be given a GOLD, SILVER or BRONZE award.

GOLD: Achieved by completing both the MISSION and SUB-MISSION fully.

SILVER: Achieved by completing the MISSION and doing well at SUB-MISSION.

BRONZE: Achieved by only completing the MISSION.

A medal on the Your Missions screen will show how you have scored for each mission.

Bonus Missions

Lucky old you. Not only do you have 20 missions in which to cause maximum chaos, we have also included 20 bonus missions guaranteed to produce even more mayhem! Each mission has its own bonus mission which, once unlocked, can be completed at anytime. To select a bonus mission, go to your scenario of choice and highlight a bonus mission from the Your Missions screen. The objectives of each bonus are explained on this screen. The further you progress in the game, the more bonus missions you'll unlock. The more bonuses you complete, the greater the number of cheats you can activate. Well...What are you waiting for?

Cheats

More mayhem? Surely not. These cheats enhance and alter your gameplay experience.

Use the Game Cheats screen to activate your desired cheat. The cheat will be active on the next missions you play. If you want to disable cheats or change your selection, come back to this menu.

Cars

Extra vehicular mayhem! There are 19 extra BONUS CARS for you to unlock. Once activated, they can be selected on the Choose Your Vehicle screen and used for just about any mission! Unlocking them is easy, highlight the car and read the details. Don't forget to save, or your extra vehicles will be lost.

TWO PLAYER

This is not your ordinary split screen mode, it's a whole new way of playing two player driving games. The major and obvious difference is that **BOTH** players are on the same screen at all times. Try it and see.

During the game, one player will control the "chasing" car. This is the car closest to the camera, and will look the largest. Generally this will be **PLAYER 1**.

The other player will control the car being "chased." This is the car slightly further away from the camera and slightly smaller. Generally this is **PLAYER 2**.

Some more advanced two player missions have the chasing roles reversed as you play!!!

There are seven different two player games to choose from. Once you have chosen the style of game, then choose from four different starting locations each with different traffic levels. Then both players can choose their cars.

OPTIONS

This menu gives you access to the load and save areas, as well as the game settings and Replay.

Load Game

From here you can load a previously saved game without returning to the title screen. To load a game, follow the on-screen prompts. Once loaded, you will return to the Options menu.

Save Game

As well as saving at the end of the mission, you can save from this menu. Saving will store your current game status that includes:

- Mission progress.
- Unlocked vehicles.
- Unlocked and selected cheats.
- Current replay for the last mission that was played.
- All audio options.

Use the on-screen prompts to guide you through the saving process.

Replay

Use this option to view your latest and greatest moments.

Music Volume

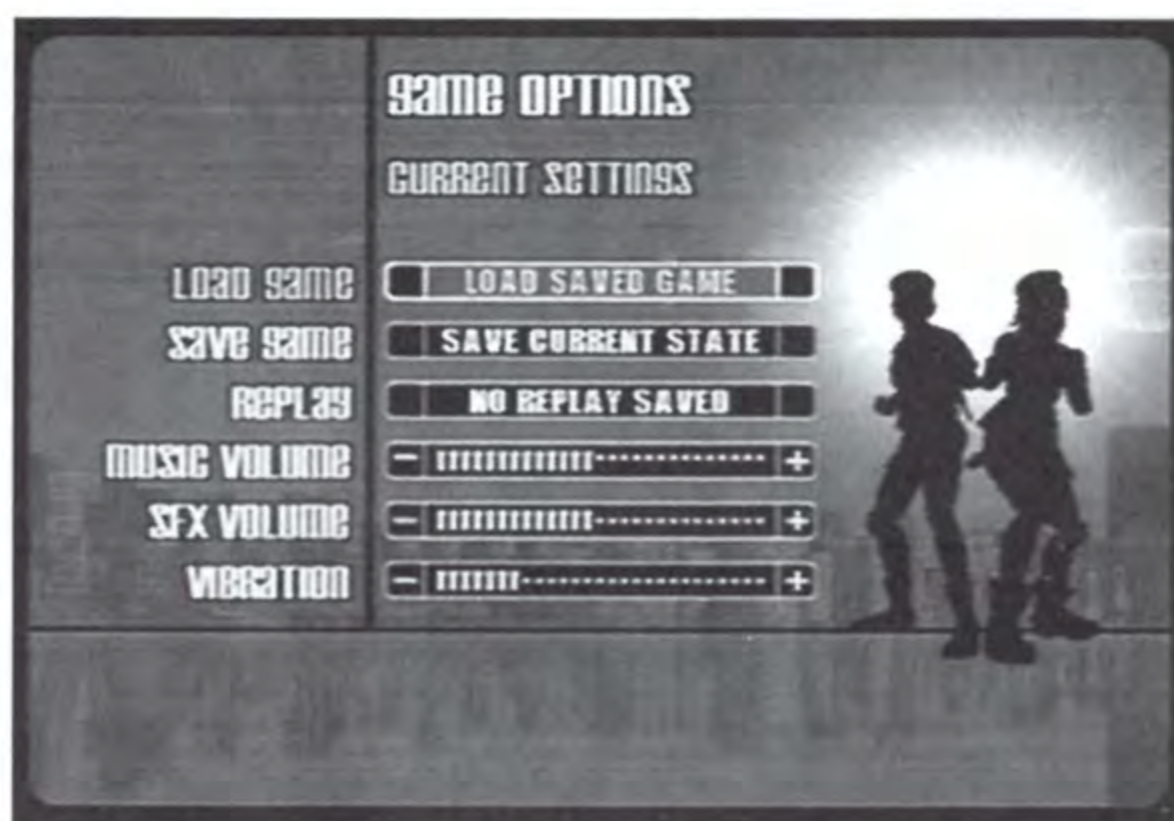

Use this to adjust the level of the music.

SFX Volume

Use this to adjust the level of the sound effects.

Vibration

This option sets the level of vibration.

HINTS AND TIPS

Not that you'll need any help...

The right car for the job: If you're having trouble, try changing your car. Some cars accelerate better, some are more maneuverable, some are smaller to squeeze through traffic, some are heavier and less affected by collisions, some are simply too big to fit in some places. It's up to you to choose the right vehicle for the job!

Use the map and the arrow: These will often show important information to help you complete your mission.

Use rockets, but carefully: Rockets are very powerful. They are good at taking out long range targets, but they take time to master. They're pretty useful at close range too, and for clearing obstructive vehicles off the road!!

Get your adrenaline pumping: Use adrenaline boost in the busiest and tightest spots. It gives you heightened reactions to respond to the situation.

Shortcuts: The shortest route between A and B is a straight line, so take it! You'll never get ahead by only taking the easy way out. Use your keen wits and good sense of direction to find better routes through the city.

Environment: Be sure you use the environment to its full advantage. This means if you have to drive on the sidewalk, through parks, or over buildings, please do. You have a license to be reckless and also a job to do!

Taking 'Em Out: I'm not talking about lunch or dinner. Ram them off the road! Rear-end them at high speeds, smash into their sides, push them into oncoming traffic, or take them head-on! Any way you cut it, you gotta TAKE 'EM OUT!

Cheat: If at first you don't succeed, CHEAT! Unlocking the cheats will not only allow you to create more carnage on the streets of Hong Kong, but will also help in your missions. So don't forget to use cheats, you've earned them.

Note: Not all cheats can be used in the two player modes.

Negotiating the busy traffic: Especially on HARD setting, try to avoid the hotspots where you know traffic is busy, and of course...drive on the sidewalk !!!
