**PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.**

**IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES**

### **WARNING - Seizures**

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions**  
**Altered vision**

**Eye or muscle twitching**  
**Involuntary movements**

**Loss of awareness**  
**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

### **WARNING - Repetitive Motion Injuries and Eyestrain**

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

### **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

**In the future....**

**After losing his only son in a car accident, a genius scientist named Dr. Tenma created a robot in memory of his son.**

**This robot was a scientific wonder unlike any other robot that existed.**

**He had six super abilities including 100,000 horsepower strength, rocket-powered feet, and the Omega Factor, which allowed him to experience human emotions.**

**Throughout the world, large numbers of robots were created to assist humans, however, the human race soon became afraid of the robots' capabilities.**

**The people are now trying to destroy the robots, causing the robotic race to rebel.**

**Underneath it all, someone is plotting a scheme to create even more tension and ultimately bring war.**

**Astro, who embodies both human and robotic traits, stands as a bridge between the two races and will always fight to reunite these two factions.**

**Astro must use not only his super powers, but his human Omega Factor to bring peace to robots and humans.**

## ● ASTRO

.....  
The most technologically complex robot in the world, Astro has an artificial brain that allows him to reason and feel emotions just like a human. He is pure-hearted and has a strong sense of justice. Don't let his boy-like tendencies fool you. He will confront any enemy-big or small.

## ● Dr. O'Shay

Dr. O'Shay became the head of the Ministry of Science after Dr. Tenma's departure. He is both foster father and mentor to Astro. He believes in equal rights for both humans and robots.

## ● Zoran

Astro's sister was created by Dr. O'Shay. She is somewhat spoiled and tends to get both herself and Astro into trouble. Despite this, she and Astro have a very strong bond.

## ● Dr. Tenma

A brilliant robot scientist. When he was head of the Ministry of Science, Dr. Tenma created a robot to replace his dead son, Tobio. He secretly desires to have his robotic empire rule the world.
