START YOUR ENGINES!

Take control of your Hot Wheels® cars and get ready to race and perform awesome aerial stunts! As a part of the Hot Wheels® team, you will race against other cars and execute acrobatic stunts to increase your cars performance. The more stunts you add, the better your score! Get through all six tracks to unlock an additional car! Also, to make it to the next level, you need to finish in first place. Only the best of the best are accepted in the Hot Wheels® stunt team!

The Hot Wheels® tracks travel all through the house and link together rooms with twists, turns, loops, and straight-aways! Winning races requires skill, speed, and aggressive driving techniques. Choose from among the most popular Hot Wheels® Cars to get up to maximum speed and perform lots of in-air stunts.

MUSIC — Use the Control Pad left or right to switch music on or off.

TUNE — Use the Control Pad left or right to select your favorite music tune.

SPEED

Speed is a major factor to win the races in Hot Wheels® Stunt Track Driver. Each car has its own acceleration rate, so experiment with the different cars to find the one that best suits your driving style. Some cars take a long time to get up to speed while others can quickly accelerate. Colliding with track edges will slow down or stop your car. Practice using the A and B Buttons to brake and accelerate quickly to pass other cars without causing collisions.

Successfully completing in-air stunts adds a burst of speed to your car. Practice using the Control Pad and the A and B Buttons to perform bigger and harder stunts to keep increasing your speed.

STUNTS

Hot Wheels® Stunt Track Driver gives you many opportunities to perform stunts. Each level offers several different jumps. A successful stunt boosts the car's maximum speed above the ordinary limit. So avoid unsuccessful stunts including landing a jump wrong or jumping off of the track.

Basic Stunt moves:

Spin — Spins the car horizontally either right or left.

Flip — Flips the car vertically up or down.

Roll — Rolls the car right or left.

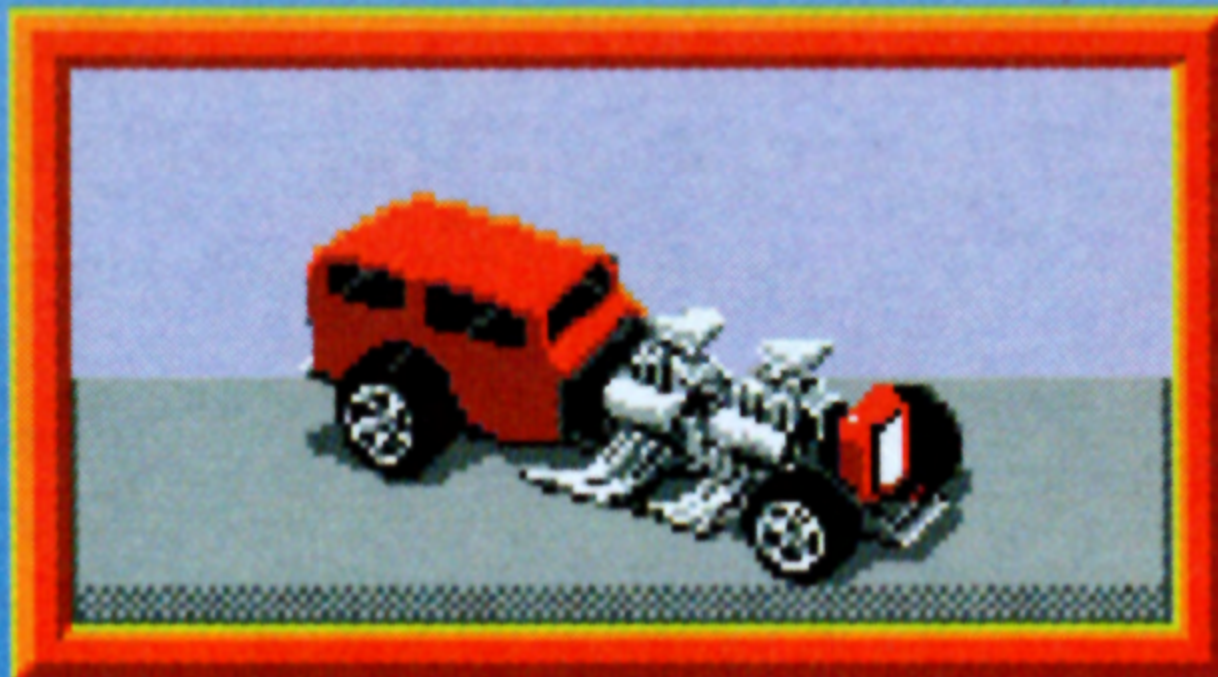

SPEED-UPS

On several places on the track there are small arrows. These arrows indicate places that will give your car a momentary burst of speed. Speed-ups can be used to pass other cars or to perform faster and higher jumps and stunts.

LEVELS

Boy's Bedroom

A boy's bedroom is the perfect place to race Hot Wheels®. Toys, furniture, and the bed itself turn into a wild raceway when Hot Wheels® tracks are added. This is the first time you'll experience the thrill of driving your car upside down. Don't lose your lunch!

Living Room

Start Hot Wheels® Stunt Track Driver in the main room of the house. The tracks have already been laid with jumps between the furniture and long, fast straight-aways on the floor. Here's where you get to practice your moves to become an expert driver.

Snow-Covered Backyard

In the backyard you'll have two extra things to deal with: dark of night and freezing snow. Use the Speed-ups to avoid your opponents and pull off high jumping maneuvers. Watch out for that tree!

Game Room

To win the level, you have to perfect your racing strategy. Avoid aggressive opponents! Also, long and dangerous jumps and several Speed-ups add extra challenges!

Kitchen

Dinner's almost ready but there's time for one more race. Outlandish jumps are mixed in with countertops, appliances, and the open refrigerator. Make sure and use the Speed-Ups to help execute jumps. Keep pressing the accelerator and that car will really cook!

Barn

Only the best make it to this complex level! Imagine a country barn full of hay and livestock. Add a Hot Wheels® racetrack and you've got real horseplay! Learning how to land jumps without losing your speed is crucial to winning this race.
