GRINDING

When you jump onto a grindable surface, such as the edge of a planter, a rail, a bench, etc., simply line yourself up with the edge and jump to land on it. You will automatically grind!

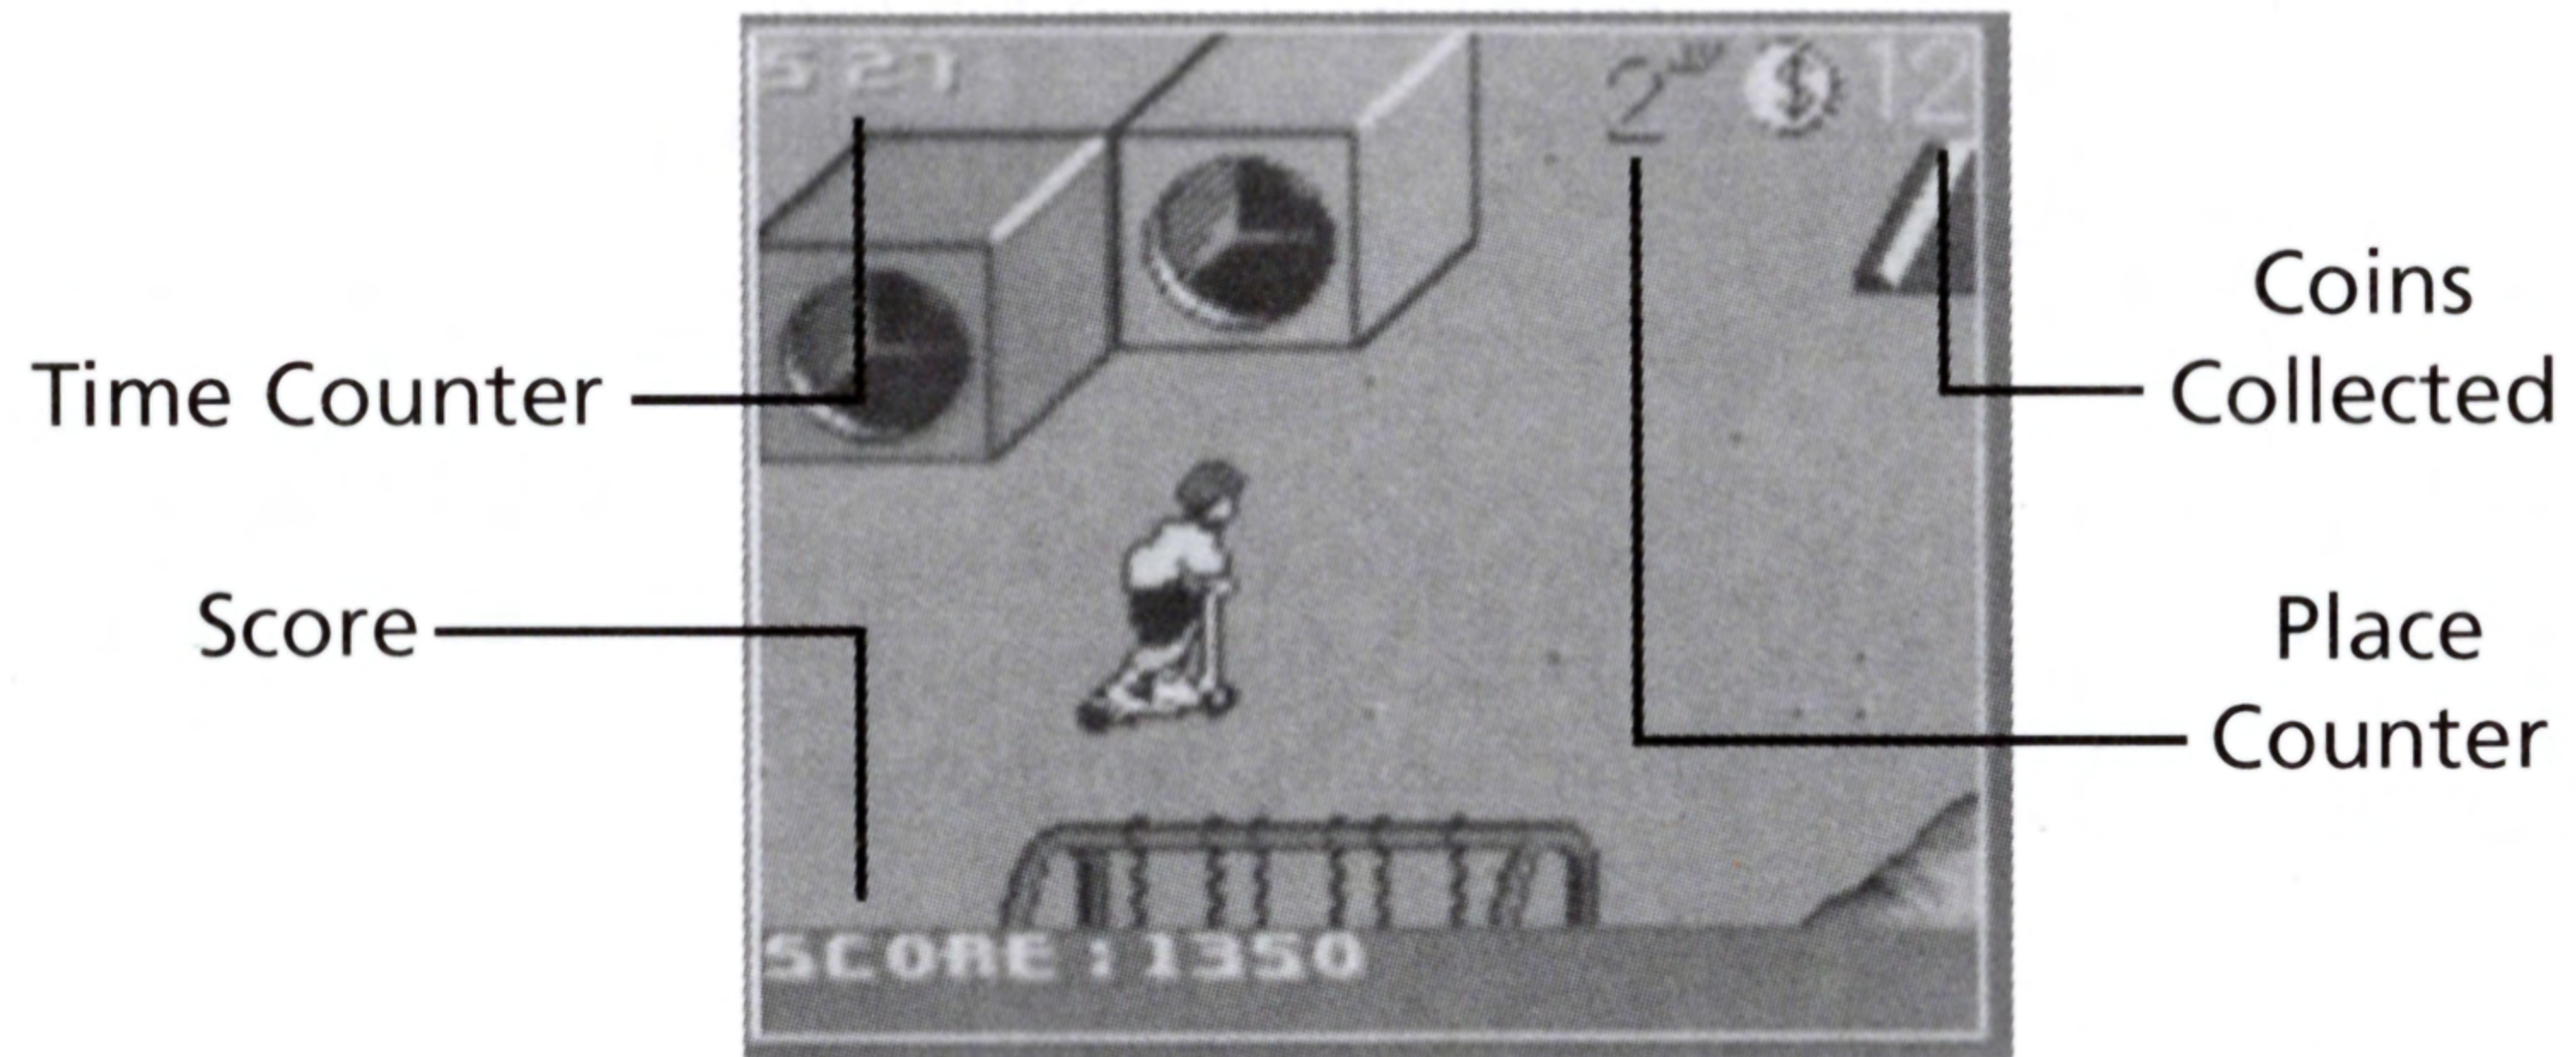

COMBOS

Trick combos can be performed when you complete a trick before going into a grind or when leaving a grind. In addition, if the line up is just right, you can jump from one grinding surface to another to create huge combos for a whole lot of points.

POWER UPS

- The "T" Power-Up – Along the tracks, you will sometimes find a power-up in the shape of a "T." If you grab this power-up, you will have turbo for ten seconds, propelling your scooter to faster speeds.
- The "B" Power-Up – You will also sometimes find a power-up in the shape of a "B." This is the Bonus Power-Up. Any tricks or combos that you perform while this power-up is active will be worth TRIPLE the points!

THE GAME SCREEN

OBSTACLES

Obstacles change from track to track, but they come in some basic categories:

- Ramps – These are perfect places to perform tricks off of or to jump onto a grindable surface.
- Hazards – Avoid these at all costs or it'll cost you...in time lost. You hit these, you bail. Some hazards include cars, oil slicks, and fences that stand in your way.
- Grinding Surfaces – As you approach the edges of these obstacles, be sure to jump at the right time to perform a grind and get some sweet points! If you don't jump in time, prepare to bail.

SETTINGS

- Music On/Off – Toggles the game music on and off.
- SFX On/Off – Toggles the game sound effects on and off.
- Track 1-8 – Allows you to sample any of the eight music tracks in the game.
- Auto Steer On/Off – With Auto Steer On, your scooter will always orient itself toward the top of the screen. With Auto Steer Off, you will have to press Left and Right on the Control Pad to orient yourself.

PASSWORDS

Use this screen to enter passwords that you received from playing Championship mode so that you can continue your game. Your current rankings and your money will both be saved with this password.

MODES OF PLAY

There are three different modes of play. They are as follows:

- **Championship** – Race against 7 opponents over 7 different tracks to become the Freestyle Scooter Champion. Collect money and points along the way so that you can upgrade your equipment. If you don't have time to race on all 7 tracks...don't worry, after you finish each track a handy password will be given to you.
- **Racing** – This is a single race. Simply select a track and go to it. There are no prizes for finishing second, to succeed you must finish first.
- **Trick Mode** – Score the appropriate amount of points on each level to progress. If you do it all, you'll definitely be the trick master!
- **Link Mode** – Select this option to compete against your friends (one at a time) via the Nintendo Game Boy Link. You can then select either the Racing or Trick Mode and show your friends who the real Reestyle Scooter Champ is!

VISIT THE SHOP

In the single player game, you can upgrade your equipment with the money you earn from Championship and Trick modes. You can buy some sweet new equipment to improve your scooting.

- **Shoes** – These improve your scooter's acceleration. To get off the line quicker, upgrade your shoes.
- **Pads** – These improve your player's resilience. With upgraded pads you will not slow down as much when another player knocks into you.
- **Forks** – These improve your scooter's steering. With upgraded forks you will be able to turn faster.
- **Wheels** – These improve your scooter's top speed. If you want to go faster, upgrade your wheels.
