WAR ON ALL FRONTS

You saved the Green Nation from the Tan menace in Army Men: World War. Your commanders awarded you promotions and ribbons, and your face became known throughout the land. Overnight, you became a hero.

But the Tan have risen again. Their war machine has produced vast numbers of men and craft, and the Green Army is calling for recruits to blunt the efforts of the enemy. Once again you are asked to serve your country, to push back an enemy intent on ruining the Green nation.

The Tan are now more determined than ever, seething from their earlier losses. The dangers you faced before were awful, but now you'll need to summon even more courage to beat back the angry Tan. Grabbing your rifle, you head back to familiar territory, the war front, waiting for the Tan storm that's approaching just over the horizon.

ARMY MEN®

ENEMY AND ALLIED SOLDIER TYPES

Depending on the mission, fellow soldiers will join you in an attempt to help complete the mission objective. Your enemies, however, are an entirely different matter. They have instructions to take out any of your army's troops that they come across, including you.

RIFLEMAN

The Rifleman is the standard soldier of any army. They are exceptionally effective in small groups or when several converge on one target from multiple locations. Beware when the enemy Riflemen come at you in numbers. Even a few enemy Riflemen can turn an unaware soldier into a pile of plastic pieces.

GRENADIER

These soldiers are very skilled at taking out entrenched positions. Take care, should they attack your location. If they themselves are entrenched, get rid of them as soon as you can. Lone enemy Grenadiers can do a lot of damage to you and your allies with just a few grenades.

MACHINE GUNNERS

These nested soldiers are hard to reach and keep you at length with their deadly stream of fire. Long-range weapons are useful at taking these guys out.

FLAMETHROWER MAN

Another type of soldier who is great at taking out fortified enemy locations is the Flamethrower Man. The strength of this soldier is the amount of damage a continuous stream of flame can do. Their limitations are that they only fire straight ahead when running and have a relatively small supply of fuel. Remember these weaknesses, and use them to your advantage.

BAZOOKA MAN

The Bazooka Man inflicts a lot of damage, taking out light armor and inflicting enough damage to threaten heavy armor. Keep in mind the slower reload time.

MORTAR MAN

Not even a tank can last very long from the shells of a Mortar Man. While the Mortar Man packs a great punch, the reload time is slow.

VEHICLES

The enemy is using armor and air power with great success. It's up to you to discover how to beat the Tan machinery.

ARMY MEN®

CAMPAIGNS

OPERATION: STEEL TIGER

You begin the war with the mission of taking out a train with supplies desperately needed by the Tan in this theater of combat. The supplies are the lifeline for the Tan, and should you intercept the train the Tan will no longer be able to wage war against the Green in the mountains. As the tracks are some distance from your starting point, you must pry a vehicle away from the enemy and head for the rail with great speed.

OPERATION: PHOENIX

Angered by your earlier advance in the mountains, the Tan are back on the offensive, and you must save the airport from attack. Lose this critical location and the Green will lose the war. Thwart the enemy here and the Green will regain the initiative. You get to take part in a bombing mission, moving between gun locations on the aircraft to defend against Tan pilots intent on downing your bomber. Take out the primary target and the mission is a success. But the Tan are in an awful mood, and once your plane is shot down you'll need to make your way back to friendly territory from behind enemy lines.

OPERATION: FIRESTORM

It's time to move against a Tan border city, a vital objective en route to the Tan interior. A vast trench network protects the city, and Tan await any assailant who dares to enter the labyrinth. If you are lucky enough to survive the maze, you are directed to move throughout the city, eliminating any opposition you encounter. This includes Tan Armor strategically placed in the city to provide great resistance to any attacker. The city needs to be free of all Tan if the Green army is to launch an attack deep into Tan territory.

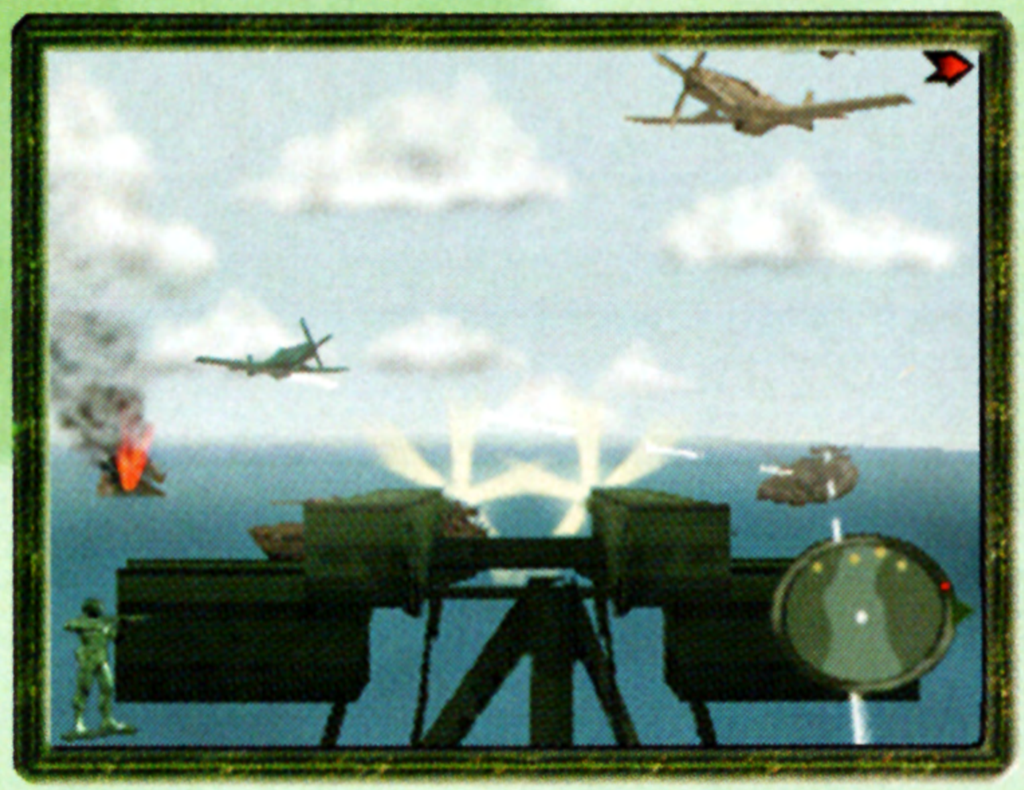

OPERATION: DRAGONFLY

Storm the hillside while the Tan rain all kinds of weapon fire down on you. Your goal is to rescue the captured Green soldiers and return them to safety. At the top of the hill is a helicopter. If you make it aboard, your orders are to blast anything Tan. If you don't make it aboard, you'll be joining the other captives. Once the chopper lands, you'll need to find your fellow soldiers and get them back to a Green helicopter safely. Success in this mission means extra soldiers available for a final massive assault against the Tan.

OPERATION: SEAWOLF

You begin the final theater of combat against the Tan from a coastal town, looking for a boat that will take you up against all of the remaining Tan Army and Navy. Entrenched in the town are a variety of Tan soldiers blocking your progress towards the waterfront. You'll first need to fight through the Tan ranks and find a PT boat that you can use. On open water, you'll need to prove you are as good a marksman at sea as you are on land, because the Tan are sending everything still in their arsenal against you.
