WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherals may damage your PlayStation game console and invalidate your console warranty.

- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.

When this happens, your rider is Amplified and can attempt to perform more difficult tricks than before – using the same button commands!

PRO CIRCUIT

Ride a series of street, vert and dirt courses designed to make you work for your scores. Complete one of the challenges in T.J. Lavin's Backyard to earn a new sprocket. Earn enough sprockets to unlock the next course.

First select a rider. If you earn a sprocket with a rider, it will appear over his head on the selection screen. Next, select a course. The loading screen displays each goal for the run. Press the **X** Button to begin the run.

Remember to complete each task before the time runs out – can you make it to the MTV Finals?

PRACTICE SESSION

Practice extreme tricks and combos to perfect your skills for the real competition. First choose a pro rider, then choose an unlocked course. With unlimited time, practice the tricks until you can pull 'em off in your sleep.

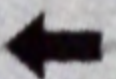

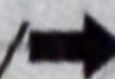

2 PLAYER

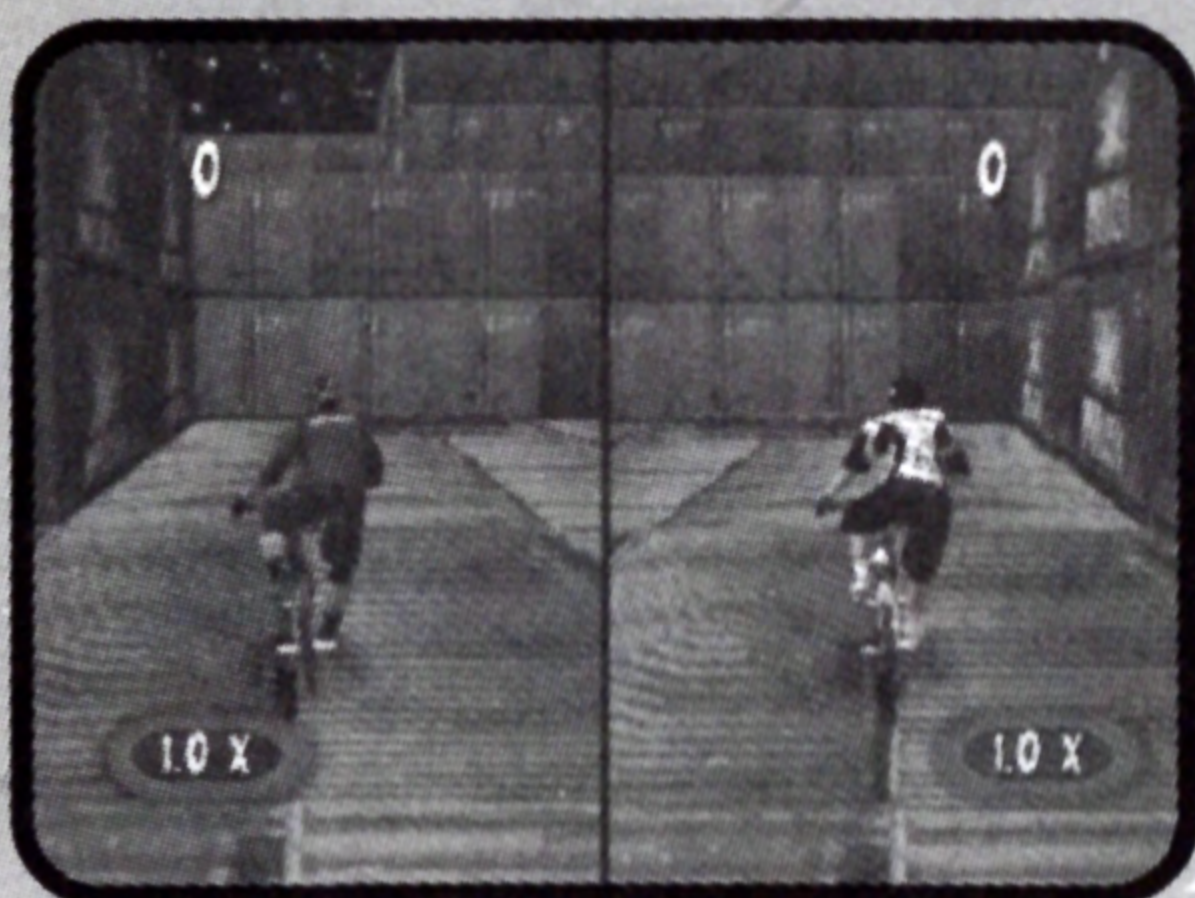

Two players can go head-to-head in any of six game modes. First, select a mode.

- **Turf War** – The player who owns the most surfaces when the time runs out wins. Claim a surface by completing a trick off it. Steal a surface by beating your opponent's trick on that surface.
- **Score War** – Score the most points before the timer runs out to win.
- **Bomb** – Whoever has the bomb when the timer runs out loses. Pass the bomb to the other player by beating his best trick.
- **The King** – Only one rider can be The King at one time. When The King crashes, the other player will become The King. The first rider to 10,000 points wins. Only The King can score points – try to knock him off his bike.
- **Tug-of-War** – Play Tug-of-War with your opponent's points! When you score points, they are removed from the other player's points. Each rider begins with 5,000. Be the first one to 10,000 to win.
- **Quick Draw** – Do whatever it takes to get 10,000 points first.

2 PLAYER CONT...

Next, select your riders. Use the Directional Buttons  /  to select a rider. Each rider's abilities are listed beneath his picture. Press  /  to change your Tag Color. The Tag Color is used to show who owns a surface during a Turf War.

Now select a level to begin the game. You can only compete on levels previously unlocked in the Pro Circuit mode.

After the game begins, press the SELECT Button to change views from a vertical split screen to a horizontal split screen.

With a MEMORY CARD inserted into MEMORY CARD Slot 1, **MTV SPORTS™: TJ Lavin's Ultimate BMX™** will load your existing game upon startup. After each run, you will be asked to save your achievements to the same MEMORY CARD. You can also save and load the game from the Options Menu by selecting MEMORY CARD.
