WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherals may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

[IN DANGER MODE]
When you are discovered by an enemy, the game enters Danger Mode and your radar becomes unusable. Once you leave the enemy's field of vision, the count down starts. When it reaches zero, the game enters Evasion Mode.

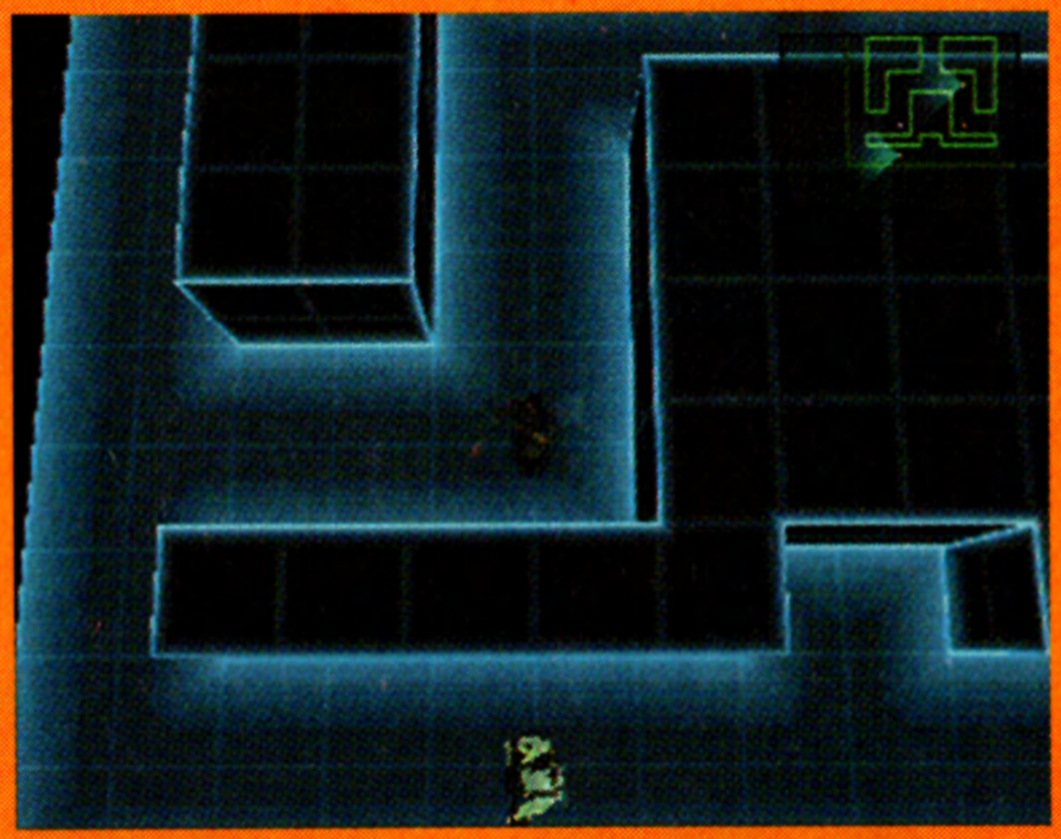

[EVASION MODE]
In this mode, the enemy soldiers are looking for Snake. If you are discovered again, the game reenters Danger Mode. If the count down reaches zero, the game returns to Infiltration Mode. Radar is unusable in this mode.

[ELECTRONIC JAMMING]
This is when the radar is unusable due to electronic jamming. During this time, weapons and other items which use electronic components, such as surveillance cameras and remote controlled missiles, will not function properly.

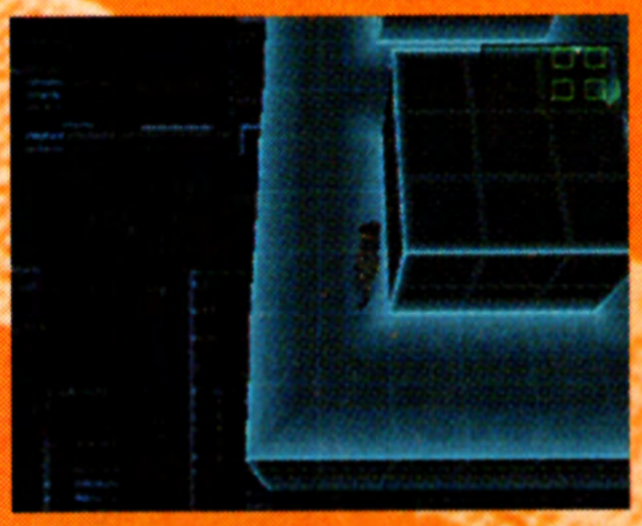

CAMERA MODES

"Metal Gear Solid" employs a variety of camera modes in order to create a feeling of participating in an infiltration mission packed with tension and excitement. Familiarize your self with each unique camera mode and use them to your best advantage.

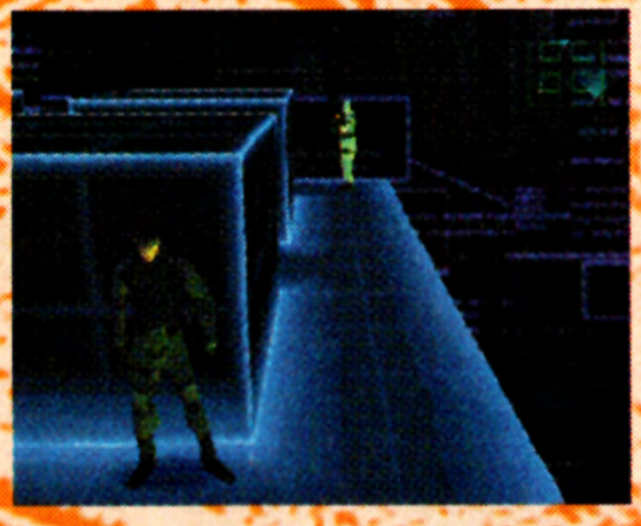

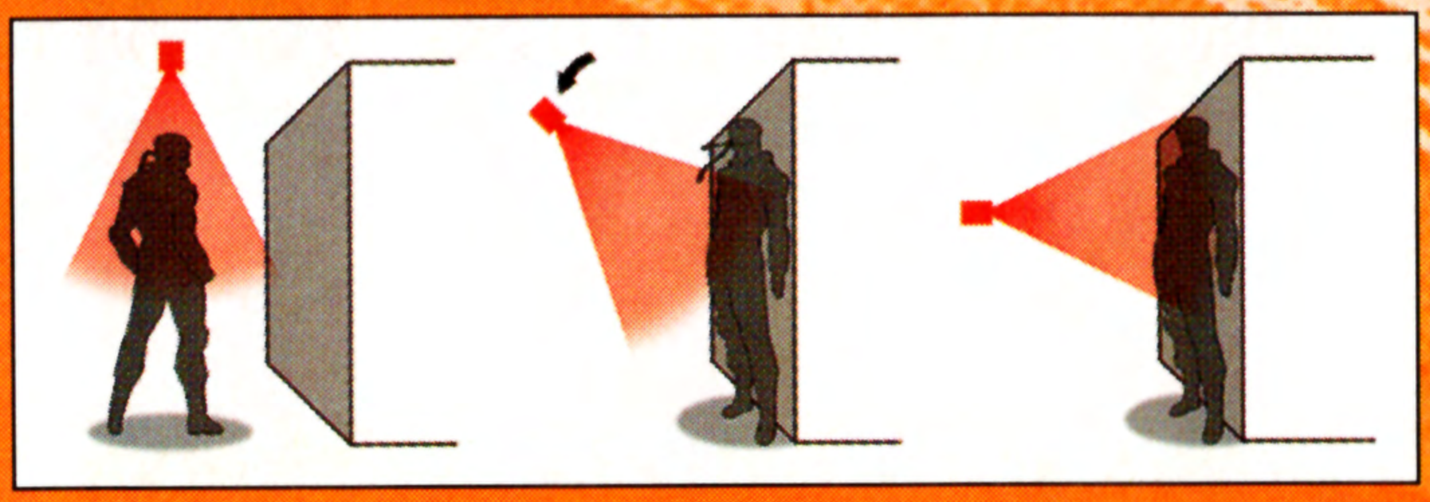

Use "Behind Mode" to spy on your surroundings while remaining hidden...

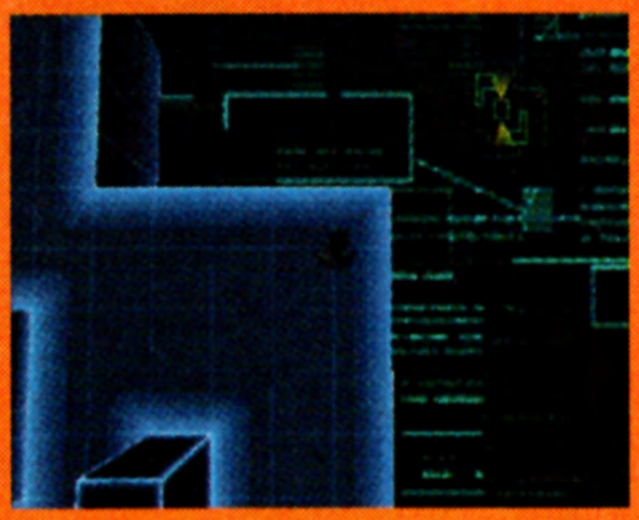

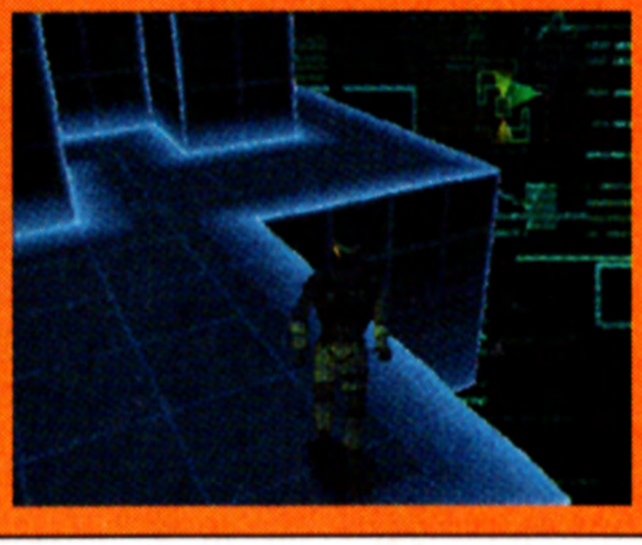

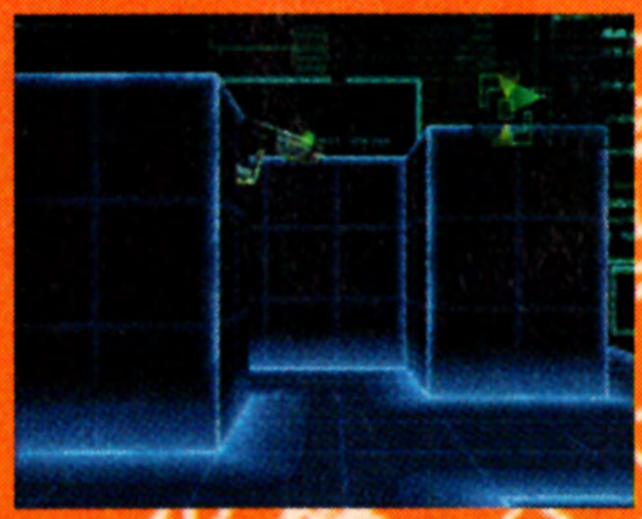

Stick up against certain walls or other objects by pushing and holding the Directional Button and the camera position will move and give you a strategic view of your area.

Use "First Person View Mode" to closely examine your direct surrounding...

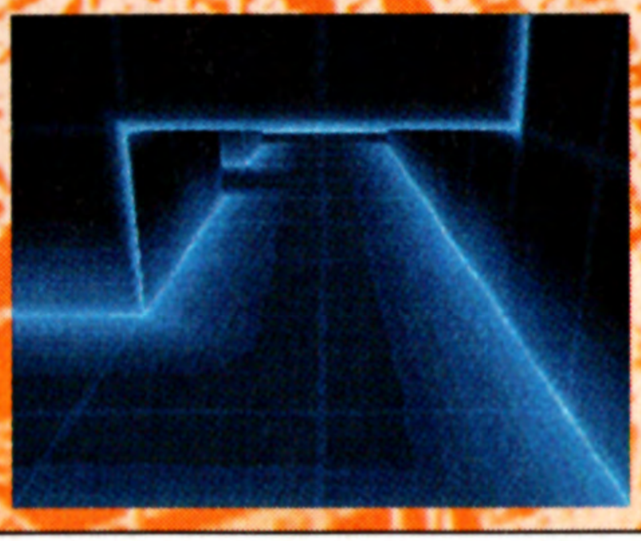

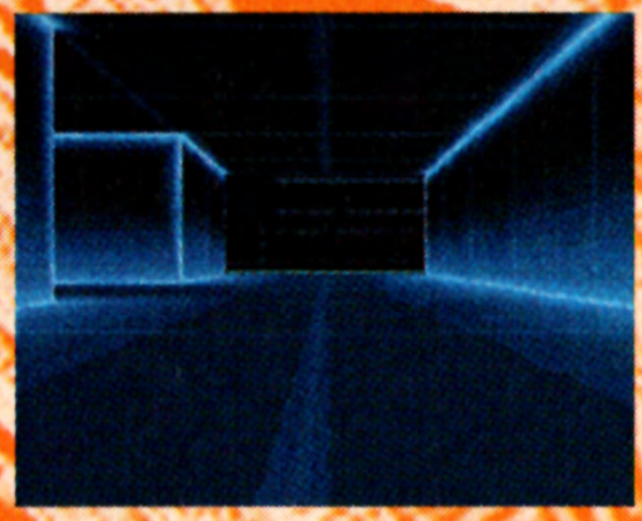

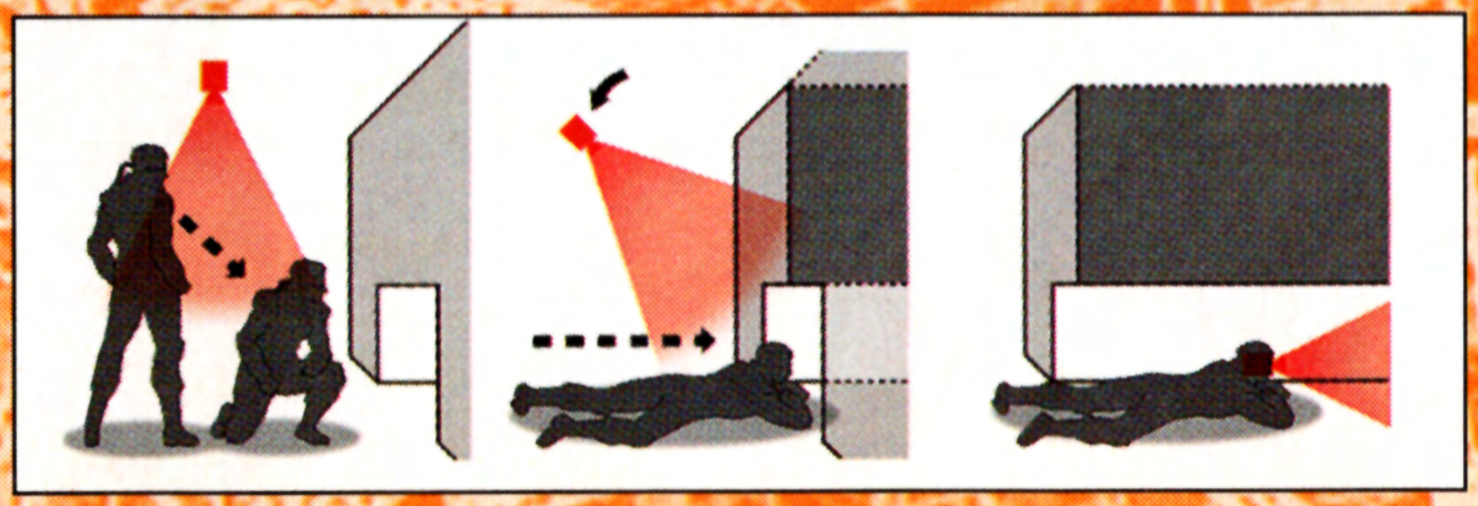

When you press the First Person View Mode Button, the camera shifts to the player's view point. If you press the Directional Buttons while holding the First Person View Mode Button, you can change the direction that Snake is looking in. When you do this, you'll be able to see your field of vision represented as a green cone on your radar.
(See p. 25"Advanced Techniques".)

"Intrude Mode" operates when you are crawling through narrow areas...

When crawling in tight, narrow spaces ,the camera shifts to the player's point of view. Advance by pressing up on the Directional Button and press down to go backwards. You can also go right or left by pushing in either direction. You can also shift to First Person View Mode while in Intrude Mode.

ENEMY ALERTNESS LEVEL

[INFILTRATION MODE]

Infiltration Mode is the standard mode when Snake has not been discovered by enemy soldiers or surveillance cameras.

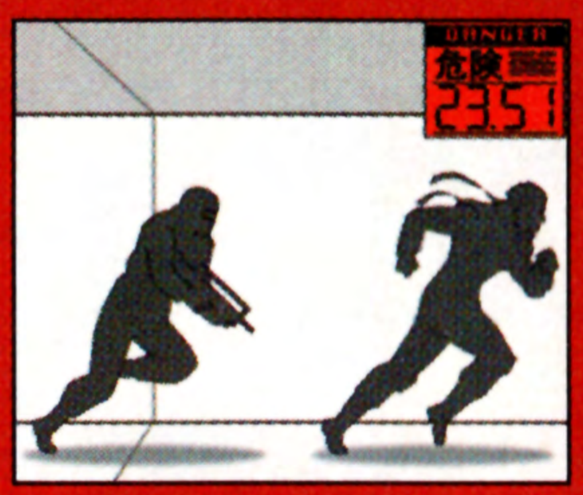

[EVASION MODE]

In Evasion Mode, the enemy soldiers are no longer patrolling their routes and are actively searching for Snake.

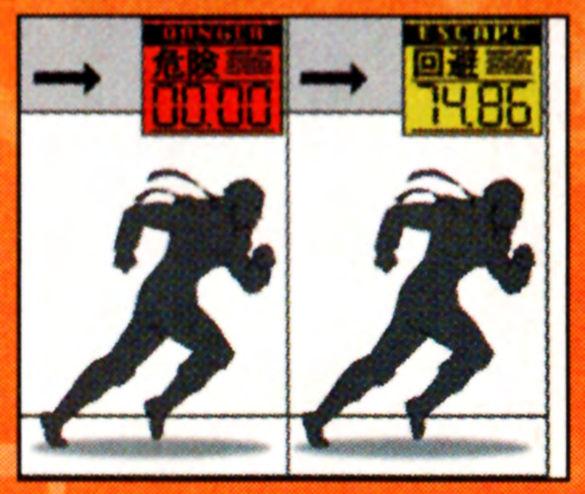

[DANGER MODE]

When Snake is discovered by an enemy soldier or a surveillance camera, the game enters Danger Mode.

In Evasion Mode, just as in Infiltration Mode, it is possible to use "Noise Mode" to lure your enemy in a particular direction.

[ENEMY SOLDIER MOVEMENT IN INFILTRATION MODE]

In Infiltration Mode, enemies generally patrol along a certain route.

When the enemy soldiers hear a noise in Infiltration Mode, they leave their patrol route and investigate in the direction of the noise. This is called "Noise Mode" and the enemy's field of vision is displayed on the radar as a red cone.

If the enemy soldiers search the area where the noise was made and find nothing unusual, they will return to their normal patrol routes. It is also possible to intentionally make a noise to lure the enemy soldiers in a particular direction.

When you kill an enemy in this mode, you may also get an item from the fallen enemy.

[ENEMY SOLDIER MOVEMENT IN DANGER MODE]

Enemy soldier movement in Danger Mode
In Danger Mode, the enemy soldiers will call in reinforcements and attack Snake, if the soldiers lose sight of Snake, the game will enter Evasion Mode.

In this mode, the enemies already know that Snake is around, so even if a noise is made, the game will not enter "Noise Mode".

[ENEMY SOLDIER MOVEMENT IN EVASION

If the enemy soldiers rediscover Snake in Evasion Mode, the game will reenter Danger Mode. On the other hand, if the player can stay out of sight of the enemy until the counter reaches zero, the game will once again enter Infiltration Mode and the enemies will quickly return to their patrol routes.

[HOW TO EQUIP ITEMS]

[EQUIPPING WEAPONS]

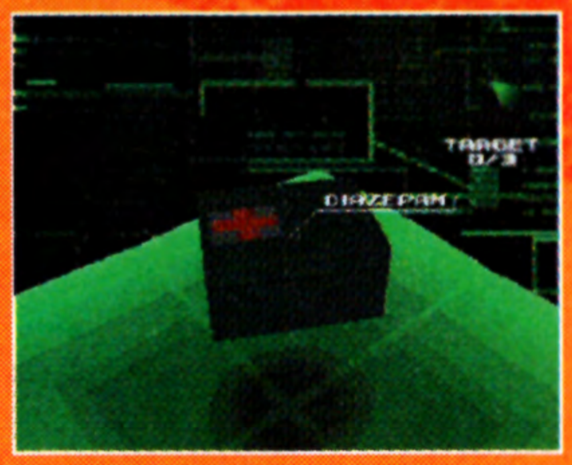

Press and hold the R2 Button to display the Weapon Window. Select the weapon you want to equip with the Directional Button and release the R2 Button to equip the weapon. When you don't want to hold any weapon, select "No Weapon".
The numbers below the weapon icon show the remaining ammo/maximum ammo.

[EQUIPPING ITEMS]

Press and hold the L2 Button to display the Item Window. Select the item you want to equip with the Directional Button and release the L2 Button to equip the item. When you don't want to hold any item, select "No Item".
The numbers below the item icon show the number of items/maximum number of items.

[GETTING ITEMS]

Items can be acquired by retrieving item boxes. You can use First Person View Mode to check to see what is inside an item box before you pick it up.
You cannot hold more items than your carrying limit.
When you have reached your carrying limit, the message "FULL" will be displayed and the item box will remain unretrieved.

[EXTRA]

[ALBUM]

If there is photograph data saved in the memory card, the player can view the data and edit the title and color tone of the photofile.

[PHOTOGRAPHING]

The player can take photos of models in the "Successful Return Photo Shoot" Mode.

[MOVIE]

The player can view movies of "Metal Gear Solid" previously shown at special events. The number of movies that are available increases as the achievement rate in VR TRAINING increases.

SUCCESSFUL RETURN PHOTO SHOOT

Select "PHOTOGRAPHING" to enter the "Successful Return Photo Shoot" mode. The player can photograph the model by using the "Camera" item.

The player can get closer to the model as the achievement rate in VR Training increases.

The photograph data can be saved in the memory card and can be reviewed by choosing "ALBUM" in the "EXTRA" menu.

CAMERA(Digital Camera)

Equip and screen changes to camera's view finder.

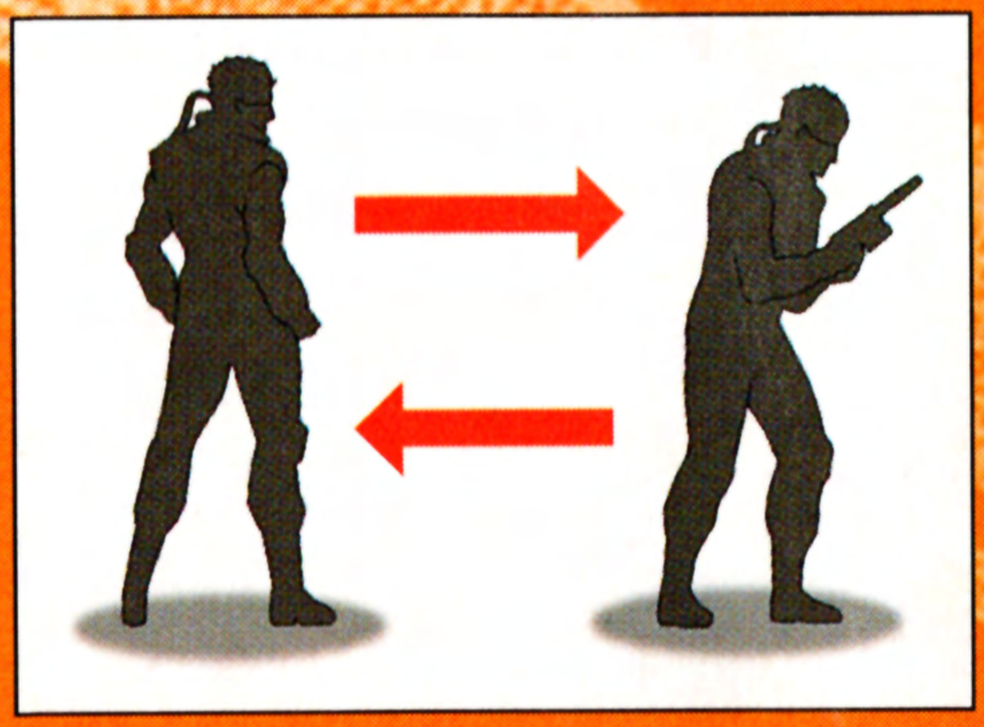

Press ○ Button to zoom in, × Button to zoom out.
Press □ Button to snap the photo. You can save a copy of the photo onto a memory card (a photo takes up two memory blocks). When photo data is saved, a new directory, "ALBUM", opens up in the "EXTRA" directory.

[STRANGLE]

When you're not holding a weapon and you press the Weapon Button (without pressing the Directional Button) while close to the enemy, you can strangle the enemy.

- If you press the Directional Button while strangling your enemy (with the Weapon Button pushed), you can walk while dragging him.
- If you repeatedly press the Weapon Button while strangling, you can snap your enemy's neck.
- If the enemy soldier struggles while the player is strangling him, the player can strengthen his grip to snap his neck by quickly pressing the Weapon Button again.

[QUICK CHANGE]

You can equip and unequip your weapons or items without opening the windows by pressing the R1/L1 Buttons. If you press the button while an item is equipped you will unequip it, and if you press while nothing is equipped, the last item/weapon you equipped will become equipped.

[QUICK PEEK]

If you press the R1 or L1 Button while in First Person View Mode, you can take one side step to the right or left respectively. When you release the button, you'll return to your original position. It's a good technique for taking a peek at what's in front of you while remaining hidden in the shadows.

[TACTICAL RELOAD AND SHOOTING WHILE RUNNING]

Reloading during a battle can be very dangerous because it leaves you temporarily defenseless. When it looks like you are about to run out of ammunition, press the R1 Button twice. This will cancel your action and make Snake reload his gun. You can also run while shooting with your SOCOM or FAMAS by pressing the Crawl Button while holding down the Weapon Button.

[LURING AND NOISE MODE]

When the enemy soldiers hear a strange noise they'll leave their patrol route and check out the area that the noise came from. Once they confirm that there's nothing unusual, they'll return to their patrol route. Press the Action Button when you're stuck up against a wall or other obstacle to make a noise. If you do it right, you should be able to lure the enemy soldier your way.
