STORYLINE

Ancient Japan had been split into two distinct regions; each controlled by a powerful warlord. Both of these men were desperate to gain control of the other's lands - and therefore become Emperor of all Japan.

Years of war finally resulted in an uneasy truce where both sides remained distrustful of one another. One of the warlords, Katasaki, finally decided to take matters into his own hands. He called upon the powerful demon lord, Batanaka, and in an evil ceremony, he sold his soul in exchange for the demon's help.

Batanaka kept his side of the bargain and sent Katasaki an army of goblins, trolls, dragons and other evil beasts. Katasaki immediately sent the demon hordes on a rampage across his enemy's land; and when they had finished, Katasaki would be able to simply take over and become emperor.

The plan came to pass but Katasaki was unable to control the wicked demons and witnessed the total decimation of Japan. The people became possessed and the dead walked freely with the living.

Years later, after a soul-searching journey, a young Ninja named Kurosawa returns to his homeland. Discovering the horrors caused by the demon, the Ninja vows to save his people from the evil grip which has befallen them...and so begins his quest to rid the land of the demon legions.
