RASCAL RACERS™

TELEGAMES®

WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherals may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

Rascal Racers™ is a cute, colorful, kart-style racing game. But don't let the cute-sy characters and cartoon-like worlds fool you. While adjustable settings will allow even the youngest drivers to enjoy this game, the multiple tracks and different racing modes can challenge the most seasoned racing veterans.

Main Menu

Select **START GAME** to choose the gameplay mode:

Tournament

In this mode, you race in one of three different Cup races. Each Cup tournament consists of three different tracks. As you race, you will earn points depending on what position you finish the race. The better you do, the more points you will earn. At the end of the three races, the points will be tallied and the winner will receive the Cup.

Arcade

In this mode, you race on a selected track. Be fast because it's a quick race, but only the best will win!

Timetrial

In this mode, you simply race against the clock. Choose a character, choose a track and then off you go! This is a great way to learn the tracks, as you are the only one racing, and you can study every nook and cranny to prepare for later competition.

Select **OPTIONS** to configure your game:

Game Options

Select difficulty, number of laps, and vibration function on or off.

Sound Options

Adjust sound effects and music.

Records

View all the record times.

Characters

The game features 10 characters for you to select as your driver. All characters are cute, friendly, adorable animals. Each character has his or her unique style of driving. At the beginning of the game, only 8 characters will be unlocked, with 2 characters hidden to be unlocked later.

AHAB – This bear is slow to reach top speed, but once there he is very fast! He does not handle well, but he can push most other characters out of his way. Ahab is a good choice for players with less experience.

ARGYLE – This anteater's acceleration and top speed are great, but his handling is quite poor (maybe that big nose of his gets in the way). Good for more experienced players.

Memory Card

Choose to load or save the game settings. **NOTE:** You must save the game settings after every playing session to retain the current Game Options, Tournament progress, and Records. You must load the game settings at the start of every playing session to restore the Game Options, Tournament progress, and Records from your last playing session.

CHAZ – This woodchuck is a quick accelerator, but his top speed is much lower than most. Chaz does make up for his shortcoming with his great handling and the ability to push and shove his way around the track. Chaz is an excellent choice for those with average driving abilities.

CADMUS – For a dragon, he is a very stable character with average abilities. He is not the biggest, fastest or most agile character in the game, but he is also not the smallest, slowest or clumsiest character either. Overall, Cadmus is a great character for beginners.

FLOSSIE – This pretty little sheep is quite the driver! While she may not have great top speed, she more than makes up for that with her quick acceleration and nice handling abilities. Flossie is a good choice for those players who have spent a little time getting to know the game.

HOGAN – This dinosaur gets up and goes quickly! Too bad his handling skills are not the best. He is a good character for those with great driving abilities.

PAULIE – For a walrus, Paulie is quite an accomplished driver. He has great top speed and is big enough to shove almost everyone out of his way. However, his acceleration and handling are very poor. Paulie is a good choice for players with more than a little skill.

ROCCO – This little raccoon drives a lot like his buddy Picasso (a hidden character). Short on speed, but his handling abilities are top notch! Choose Rocco if you like to overtake opponents in the turns!

Bonus Items

During each race you will see a series of question marks floating slightly above the track. Colliding into one of the question marks will give you a special bonus you can use to enhance your position in the race. There are six of these bonuses:

FORCE FIELD: This is a great bonus! Not only will it protect you from rockets, guided missiles, mines, and grenades, but also if you touch another character with it, they will spin out!

TURBO BOOST: This bonus item allows a character to boost his speed for a short period of time.

GUIDED MISSILE: The guided missile is a “fire and forget” bonus item. It couldn’t be simpler; just fire the missile and the character in front of you will be hit and stunned.

MINE: When you drop a mine, it comes out of the back of your vehicle. If another character runs into it, they will be stunned.

GRENADE: Almost identical to the mine is the grenade. The only difference here is that grenades will auto destruct after a certain amount of time if they have not been hit by anyone. This means that you could just be driving next to a grenade and it may explode.

TOMAHAWK ROCKET: The tomahawk rocket separates into three distinct rockets. This one is great for shooting into a crowd of racers as you have a very good chance of at least hitting one of them, maybe even three!
