NOTE: You may have a controller that looks like this, if so please follow the digital instructions outlined above.

MEET THE TEAM

The Rescue Heroes™ squad is a team of international emergency-response professionals who can be called to action in microseconds. No emergency is too big or too small for them to handle. They are equipped with all the latest knowledge, high-tech hardware, and cutting-edge technology to enable them to leap into action with maximum efficiency. When disaster strikes, the Rescue Heroes team is there to...
SAVE THE DAY!

Billy Blazes™ leads the Rescue Heroes team. His steady nerves keep him icy cool even when dealing with flaming hot situations. He specializes in extinguishing fires, explosives, and anything else that burns.

Ariel Flyer™, ace pilot and animal expert for the Rescue Heroes team, soars to the aid of anyone in need. She always carries a stethoscope and oxygen mask for any needed medical treatment, and her hover-jet is equipped with a winch to help lift people from danger. Whenever a person needs immediate assistance, Ariel Flyer will fly to the rescue!

Rocky Canyon™ is a fun-loving geology expert who likes to study rocks and has climbed the world's tallest mountain ranges. He travels on foot to his missions and carries a grappling iron launcher on his shoulder. It launches a hook attached to a cord that allows him to leap over huge canyons and pull himself up to reach people in treacherous places.

The ***Air Rescue Specialist*** is one of the best glider pilots in the country. He's also a meteorologist who understands the weather, which is very helpful when fighting natural disasters. His glider can circle, hover, or swoop up and down—he can even flip sideways to fly through narrow gaps!

Gil Gripper™, in his scuba gear, smoothly operates every kind of water-related machinery. The Rescue Heroes team relies on his specific expertise to swiftly assess and act on any aquatic disaster. He rides a special water vehicle that can cruise underwater or jump over obstacles to reach people and animals in trouble.

Jake Justice™ is the Rescue Heroes squad's informal teacher. A motorcycle officer, he loves to travel on his bike. Jake Justice was born to rescue and specializes in untangling traffic mishaps. He can jump over gaps or climb steep, ashy slopes using his bike's retractable super-grip treads.

Roger Houston™ oversees the Earth-based action from space. Whether the situation calls for removing space junk, daring space-age rescues, or some atmospheric perspective, Roger Houston is expertly equipped and ready to go!

Get to know all the Rescue Heroes team members and guide them through their missions in the disaster zone. They need your help to save Misty Peaks™!

INTRODUCTION

EMERGENCY! A volcano has exploded and the town of Misty Peaks™ is in danger! Each of the Rescue Heroes™ team members has a specific mission, and he or she will need your help to complete the job successfully. So get ready to help **SAVE THE DAY!**

Roger Houston™ reports on the emergencies from his Space Station, but his view is obscured by the volcano's smoky ash cloud. He needs your help—report what you see as you guide the Rescue Heroes team members through their missions. From the Command Center, Billy Blazes™ coordinates the rescue missions. There are five Rescue Heroes team member assignments and a final rescue mission for Billy Blazes.

As you guide each Rescue Heroes character through his or her mission, you will earn badges for each successful rescue you make. The quicker the rescue, the more badges you can earn. Billy Blazes™ will radio more help and information if you need it.

GAME MODES

Every time you start Rescue Heroes™: Molten Menace™, you will be able to choose to play in either Training Mode or Rescue Specialist Mode.

“TRAINING” (ASSISTED) MODE

The default setting is “Training” or Assisted Mode. In this mode you can only move forward through the level in search of those needing rescue. Once you have found them, press the ✕ button to perform the rescue. Assisted Mode is a good place to start.

“RESCUE SPECIALIST” (UNASSISTED) MODE

When you’re ready for an extra challenge, choose “Rescue Specialist” or Unassisted Mode. This mode requires that you find your own way through the mission using only an on-screen arrow as your guide.

MISSION STRUCTURE

Each mission contains two assignments for each Rescue Heroes character. To complete the mission successfully, you must accomplish both parts.

- ✧ **Rescue Missions:** Head into the disaster zone with a Rescue Heroes squad member to find your rescue targets and complete the rescues.
- ✧ **Special Missions:** Use the special ability available to each Rescue Heroes squad member to complete the Special Mission. (See the individual missions beginning on page 14 for detailed information on each squad member’s special ability.)

When you’ve finished all the missions and saved the town, you will receive your Certificate of Honor for helping out the Rescue Heroes Team.

Are you ready? *Teamwork will help save Misty Peaks™, so let’s go!*

EQUIPMENT CHECK

MISSION STRATEGY

There are a number of on-screen features that can help you accomplish your missions. They include:

Guidance Arrow

In the Rescue Specialist Mode there is an on-screen arrow that moves with your Rescue Heroes character to point the way to your next target. Note that you may need to find your way around an obstacle to reach the target.

Highlighted Rescue Targets

People or animals that need rescuing will be highlighted on-screen so you can spot them more easily.

The Radio Link Panel

The Radio Link Panel flips open to show the face of the Rescue Heroes™ team member who is broadcasting information to help you perform your current mission. The panel also shows “thank you” messages from people you have rescued.

Once you have rescued someone, a representation of all the mission’s rescue targets will appear briefly at the bottom of the screen. Faces still needing rescue will appear in shadow while those already rescued will be in color.

REWARDS & PENALTIES

Rewards

During your rescue missions, you earn the following rewards:

- ❖ Praise for completing tasks from Billy Blazes™ and your Rescue Heroes™ teammates via the radio link. The people and animals you rescue will thank you as well.
- ❖ Badges for completing rescues of people and animals.

The more quickly you complete a single rescue, the greater the number of badges you will be awarded. Your badge totals are presented on the Mission Report Screen at the end of each mission (see Mission Report Screen on page 13). Upon completion of all the Rescue Heroes missions, you will receive a Certificate of Honor.

Penalties

Your badge total will be reduced if you encounter a hazard (for example, you get hit by a lava bomb or caught by a whirlwind).

NOTE: When you get caught by a hazard, you will spin around for a moment and lose control of your character.

SAVING YOUR BADGE TOTAL

After you complete the first mission, you can save your game's progress whenever you are at the Mission Report Screen. See Saving & Loading on page 21.

THE PAUSE MENU

The pause function is available at any time throughout the game's missions. Press the **START** key to bring up the Pause overlay, where you will be able to:

- ✧ Quit the game and return to the Main Menu
- ✧ Quit and return to the Command Center
- ✧ Un-Pause and continue your mission

MISSION SUMMARY SCREEN

After each mission, the Mission Summary Screen summarizes your accomplishments. This screen will show you the badge totals from your mission categorized as follows:

- ✧ The number of badges earned for each rescue
- ✧ The total number of badges you've earned for all your rescues

This information will be saved until the end of the entire rescue operation, when your total score will be summarized.
