WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherals may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

CONTROLS

GETTING STARTED

FRONT-END OPERATIONS

POWER ON Place the 'Roadsters' CD into your PlayStation® game console and press the POWER button; the game will then begin to load. Follow the on-screen instructions.

MEMORY CARD OPTIONS

Roadsters has an 'Auto-save' feature, which will automatically save your progress and lap data through the game as long as you have a MEMORY CARD inserted into MEMORY CARD slot 1. If you start the game without a valid MEMORY CARD inserted, the 'Auto Save' feature will be disabled and you will not be able to save your game data.

GAME OPTIONS

ROADSTER TROPHY

Take part in a Roadster Trophy championship race against 7 competitors, over 3 divisions. Place bets on your final position, buy and sell cars to improve your chances of winning. Upgrade your vehicle to aid your progression through the divisions. Your progression through this mode will allow for more race options to become available within the other games modes.

MULTI-PLAYER

Race a friend, head-to-head on a track that has been opened in the Trophy mode.

QUICK RACE

Compete against 7 computer cars in a single race on a track already visited in the Trophy mode.

TIME TRIAL

Learn the racing lines and optimize your braking distance to improve lap times. You can practice on tracks that have been made available in the Trophy mode.

Category Selection

Use Up or Down Directional Buttons on the controller to select the category. Press the X button to choose the option. You must have won a C category Championship to enter Category B and have enough funds. Likewise, you must have finished first in the B category to enter an A Championship. Again, you must have enough money.

Circuit Selection

After selecting your driver and the car of your dreams, the circuit select screen appears. Press Up/Down Directional Buttons on the controller to highlight the desired track option and Left/Right Directional Buttons to change it.

ROADSTER TROPHY

You begin the championship with enough funds to enter Division '3' only. You must first choose a driver, a division and purchase a vehicle to race with. If you have already raced in a championship and have saved data on a MEMORY CARD, you will have the option to start a new trophy or continue the current one.

DRIVER SELECT:

Choose Driver

Press Left/Right Directional Buttons to view the available drivers. Press the X button to select the one you want.

Change Name

RACE INFORMATION

This screen gives you details about the track and the race you will participate in, such as the circuit, weather, and the forecast.

SELECT A CAR

SELECT CAR

RACE ENTRANTS & BETTING

This screen allows you to see all the entrants to the race within which you are about to enter - the driver's names, their cars and their wins. You can choose from the three following options:

Enter Race

Start the race. If you intend to make alterations to your vehicle do so before selecting this option.

Bet on Race

As long as you have enough cash after purchasing a car, you can place a bet on your final position from 1st to 3rd. The table below shows the winning combinations:

- 1st - Only 1st Place wins
- 2nd - 1st & 2nd Place wins
- 3rd - 1st, 2nd & 3rd Place wins

Use the Up/Down Directional Buttons on the controller to select the required betting option and Left/Right Directional Buttons to change it. By choosing your final position, the odds will be shown on the screen.

Exit Championship

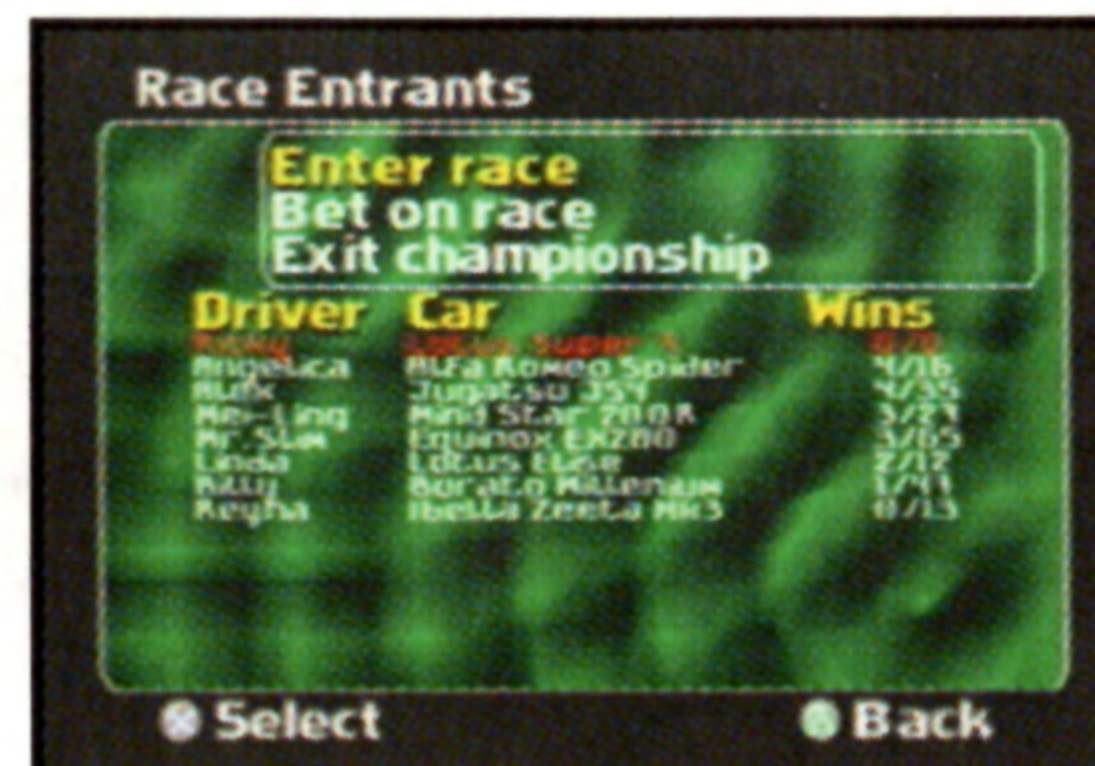

This option brings you back to the main menu - The GameTypes.

PITS

In either Roadster Trophy or Quick Race modes, you have the opportunity to use a pit stop to change your tires. By entering the pit lane, the computer will take control of your vehicle. A menu then appears allowing you to select the tire type you require by using the Up/Down Directional Buttons followed by the X button to select it. By leaving the pit lane, control is given back to you.
