ARCADE MODE

After selecting this 1 player mode from the Mode Select screen of either game, highlight a character and press a button to select it. You can select character color depending on which button you use to select the character. If SPEED is set to FREE in the OPTION MODE of Super Street Fighter II Turbo, choose between 3 levels of TURBO speed after selecting your character (see page 5). You will battle each character in the Super Street Fighter tournament. If you are good enough, you may reach the finals.

To join in with a 2nd player and fight a single match, simply press the Start button on the Player 2 controller, then select a character.

VS. MODE

This mode allows you to have single 2-player matches. Select each character and color in the same manner as ARCADE MODE. Also, in Super Street Fighter II Turbo, choose between 3 levels of TURBO speed. After the match ends, you will be able to choose 2 new characters if you desire.

OPTION MODE

The OPTION MODE for both games are identical, except for the SPEED option in Super Street Fighter II Turbo.

BACKUP-MEMORY CARD

This allows you to save your OPTION MODE settings and HI-SCORE data onto a Memory card. STREET FIGHTER COLLECTION uses 1 Block on your Memory card.

To save your game, make sure your Memory card is plugged into Memory card Slot 1. Now select BACKUP from the Mode Select screen, press the Start button then highlight SAVE DATA. Press the **X** button to select SAVE DATA. Your game will automatically save your settings. Follow the on-screen instructions to return to the OPTION MODE.

If you attempt to save, and the message "Too Many Files" appears, you will not be able to save the current data on that Memory card. You must use a different Memory card with enough free memory or create space on the current Memory card. To ensure your Memory card has enough space available to save, follow the instructions outlined in the instruction manual packaged with your PlayStation® game console.

LOAD DATA

After saving to a Memory card, you can LOAD your settings and play with those settings intact. Make sure that the Memory card with the saved data is plugged into Memory card Slot 1, then select BACKUP from the Mode Select screen. Highlight LOAD DATA and press the **X** button to select it. Your saved data will automatically load. Follow the on-screen instructions to return to the Mode Select screen.

Note: During save or load options, do not remove the Memory card or press the Reset button. This may destroy the data on your Memory card.

GAME MODES

There are 4 modes of play and 2 setup modes for Street Fighter Alpha 2 Gold. After a battle, the win/loss screen appears. At the continue screen, press the Start button before the time reaches zero in order to continue. To bypass the continue screen and end the game, press any button other than the Start button. *(Note: Turning SHORTCUT to "on" in the OPTION MODE bypasses the Mode Select screen. See page 20 for more)*

To adjust your button configuration during gameplay, press the Start button to pause the game. Then press the Select button. Select BUTTON CONFIG from the menu to adjust your buttons, then EXIT when you are finished. Select QUIT to return to the Mode Select screen. When configuring your buttons, use the Directional button to highlight the function, then press the button you want to perform that function.

ARCADE MODE

Select a Street Fighter character and fight your way through 8 other computer-controlled opponents. ARCADE is a one-player game, but a second player can join in at any time. Press the Start button on the opposite controller to join in. The character select screen will appear.

From the title screen, press the Start button to see the Mode Select screen. Use the Directional button to highlight this mode, then press the Start button to select it. You will then see the Character Select screen. Use the Directional button to highlight a character. When selecting a character, you may also change the color of your character depending on which button you press.

MANUAL

You must perform all blocking functions, and Super Combos must be performed using the full instructions outlined in ALPHA WARRIORS (see page 24).

AUTO

Auto mode offers 2 features:

Simple Command-You can execute Super Combos by simply pressing 2 buttons simultaneously. Press Light Punch and Light Kick simultaneously for Super Combo #1. Press Medium Punch and Medium Kick for Super Combo #2, and press Hard Punch and Hard Kick for Super Combo #3. If your character has only 2 Super Combos, #2 is executed even if you enter the command for #3. Only Level 1 Super Combos are available in AUTO mode.

AUTO GUARD

Your character will block automatically unless you are attacking. The number of available auto guards is unlimited.

Note: Your opponent can block Super Combos in the air while you are in AUTO mode.

V.S. MODE

V.S. MODE is the classic 2-player contest. Use the Directional button to highlight this from the Mode Select screen and press the Start button to select it. You will then be presented with the Character Select screen. Select character, color, game speed and MANUAL/AUTO in the same manner as the ARCADE mode.

SURVIVAL MODE

This one-player mode challenges your skill as a Street Fighter. Highlight and select a character as you would in ARCADE mode. Fight as far as you can in 1 round matches where your vitality level carries over to the next match. You are rated by time and hits, which add up to your recovery level. Your recovery level determines how much vitality you will recover for the next match.

When you finish the SURVIVAL mode or you lose a round, you can enter your name if you rank. When you lose, the Continue screen appears. Highlight CONTINUE to keep playing the SURVIVAL mode or EXIT to return to the Mode Select screen. Press the X button to make your selection.

Note: During save or load options, do not remove the Memory card or press the Reset button. This may destroy the data on your Memory card.

SPECIAL FEATURES

Street Fighter Alpha 2 Gold offers many other great features. Here is a description of each:

SUPER COMBO LEVEL GAUGE:

Each time you execute normal moves and special moves, your Super Combo Gauge will build up. Your level will increase when the gauge reaches certain points, and then you will be able to perform Super Combos, Custom Combos and Alpha Counter moves.

When performing Super Combos, the amount of damage inflicted by a successful combo can be controlled depending on the buttons pressed. With the Super Combo Level Gauge at full power (Level 3) you can perform the Super Combo using 1, 2 or 3 attack buttons simultaneously to increase or decrease the number of hits inflicted. The more buttons you press simultaneously, the more damage will be inflicted but more power will be consumed from your gauge.

As a convenience, you can set one button on your controller to act as 3 Punch and one button to act as 3 Kick buttons when performing Super Combos.

CUSTOM COMBOS:

Street Fighter Alpha 2 Gold gives you more ways to play! Create your own rapid-fire assault of multi-combinations that will pulverize your opponent. When your Super Combo Level Gauge reaches Level 1 or above, you're ready to do a Custom Combo. Here's what to do:

Press: **2P + K** or **2K + P**

This activates the Custom Combo system. You will see your character explode into a Custom Combo. Right above the Super Combo Level Gauge will be the Custom Combo Timer. You only have a certain amount of time to create the Combo. Once the Timer reaches zero, the Combo will end.

While in the Combo, execute any punch, kick or special move to make up your multi-hit combination. Super Combo moves are not available in Custom Combos.

ALPHA COUNTER:

When you block your opponent's attack, press the Directional buttons  in a smooth motion, then press a punch or kick button. This will perform an Alpha Counter attack, which is a quick counter move against your vulnerable opponent. Each character has 2 different Alpha Counters depending on which button you press. Alpha Counters consume 1 level on your Super Combo gauge.

AVOID BEING FLOORED:

When you are hit by a knock-down move (Dragon Punch, Leg Throw, etc.) press the Directional buttons  in a smooth motion, then press any punch button. Your character will roll forward and avoid being floored by your opponent's move.
