WHO WANTS TO BE A MILLIONAIRE 3rd EDITION

WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PLAYSTATION® DISC

- Do not bend it, crush it, or submerge it in liquids.

- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use.

STARTING UP

Set up your PlayStation® game console according to the instructions in its Instruction Manual. Make sure the power is OFF before inserting or removing a compact disc. Insert the Who Wants To Be A Millionaire: 3rd Edition disc and close the disc cover. Insert one game controller and turn ON the PlayStation game console. Follow the on-screen instructions to start a game.

GAME CONTROLS

NOW YOU'RE IN THE HOT SEAT!

Are you the one who always knows the answer to that obscure question? Do you really think you know it all? Now you can get your shot at the Hot Seat, a little fame and a big chunk of money (virtual dollars). It's time to show the world how smart you really are.

All you have to do is give the correct answers to 15 multiple choice questions. At first, the questions may seem almost too easy. But each new one ratches up the difficulty level until you feel the sweat beginning to

drip down your forehead. By the time Regis asks, "Is that your final answer?", you might feel like a ton of encyclopedias is laying on your chest.

But you have help. When the pressure seems overwhelming, use one of three Lifelines that just might save you from losing out on a fortune. You can "Ask The Audience" if they know the answer, call one of Regis' friends

for help with "Phone A Friend" or eliminate two incorrect answers, increasing your chances of guessing the right one with "50/50".

The drama intensifies as you climb the ladder towards \$1,000,000. Do you give up and walk with the money you've already won? Do you go for the bigger bucks and risk losing some serious dough?

Go it alone or flex your mind muscles in the 2 Player Fastest Finger Round to see who gets first shot at the main event.

Answer all 15 questions and \$1,000,000 in (fantasy) prize money is yours. So pull up the Hot Seat and let's get to it.

PLAYING THE GAME

Who Wants To Be A Millionaire: 3rd Edition is a very simple game... Just answer 15 questions in a row correctly to win \$1,000,000!

START A GAME

1. On the Contestants screen, press the  button for a 1-Player game or the  button for a 2-Player game.
2. If you want to see how to play the game, Press the  button for instructions. Press the  button to skip the lesson.

ENTER YOUR NAME

Be quick about it or Regis will start in on you. (In a 2-Player game, only one person will enter a name after the Fastest Finger contest is decided.)

Press the Directional buttons to enter your name. Then press the  button to confirm.

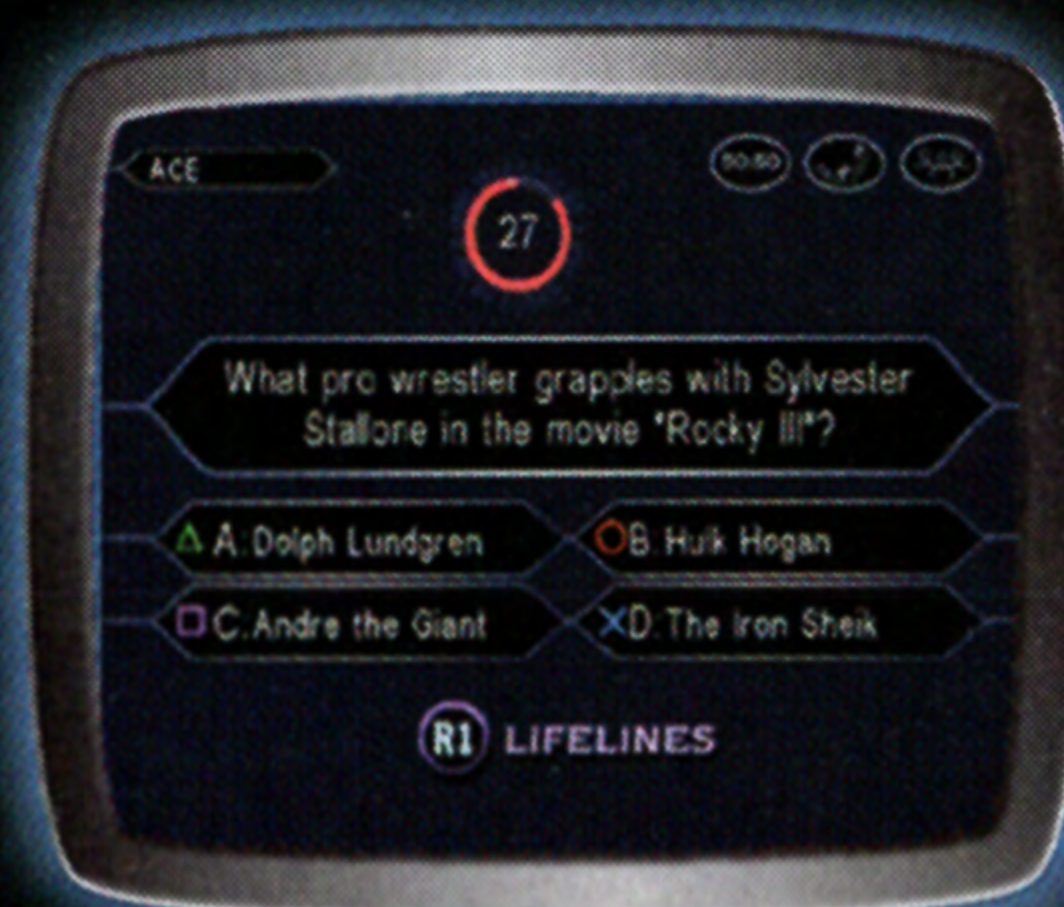

RULES

- Answer 15 multiple choice questions correctly in a row. Each question has four possible answers. The first question is worth \$100. The interim questions are worth progressively higher payoffs. The last question is worth \$1,000,000.
- You have 30 seconds to answer the question or ask for a Lifeline.
- If you answer a question incorrectly or run over the 30 second time limit, the game is over and you lose all your winnings. However, if you have passed either the \$1,000 or the \$32,000 milestones, you walk away with those amounts.
- Three Lifelines are available to help answer tough questions. You have 15 seconds to answer the question after you use a Lifeline. You can use each Lifeline only once during a game.
- Once you use up all your Lifelines, you may elect to quit the game. If you've reached either the \$1,000 or \$32,000 milestones, then you won't walk away empty-handed.
- Sometimes Regis will ask, "Is that your final answer?" If you say no, Regis will give you 10 seconds to reconsider. You must give your final answer within that 10 seconds or lose the game.
- If this is a 2-Player game, a Fastest Finger contest is run first to see which player gets to sit in the Hot Seat. (See page 7.)

THE HOT SEAT

Take the Hot Seat and get ready to prove how smart you are!

When the question is asked, press the button on your controller that corresponds to the answer you choose. Don't wait too long. You have 30 seconds. If you don't know the answer, press R1 to use a Lifeline.

PROGRESSING UP THE LADDER

The prize money escalates with each correctly answered question. The Money screen shows how much money you have earned and how many questions you have answered. A white diamond appears next to each answered level.

END OF THE GAME

The game is over when you answer the 15th question correctly, answer any question incorrectly or run out of time before answering a question. You will be presented with a personally signed check from Regis himself.

FASTEST FINGER (2-PLAYER GAME)

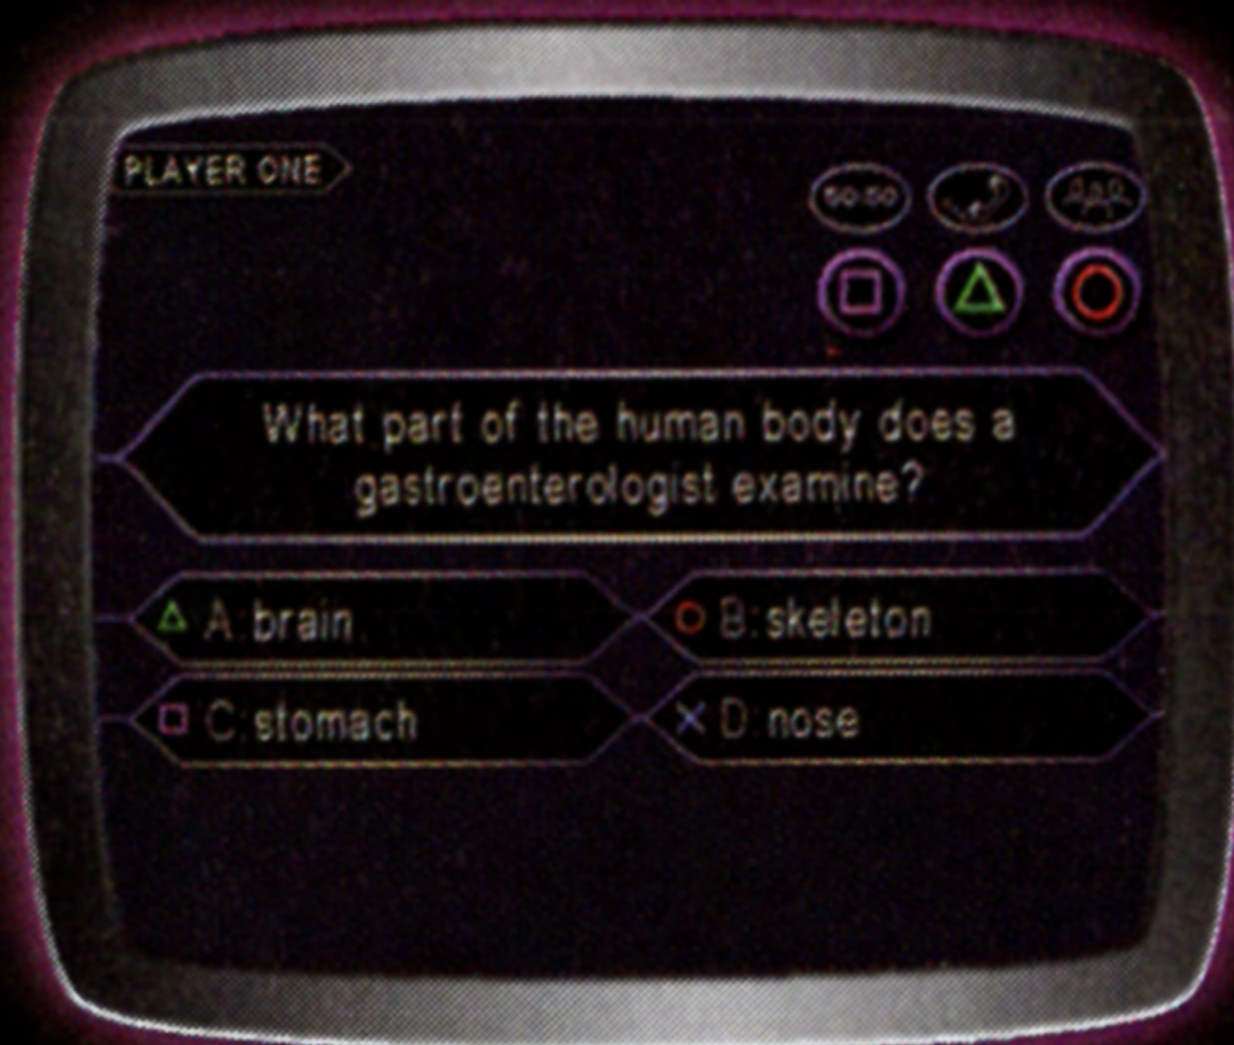

Fastest Finger is a 2-Player contest to see who gets first shot at the Hot Seat and the \$1,000,000 prize.

1. On the Contestants screen, press the  button for a 2-Player game.
2. Be sure there are two controllers inserted in your PlayStation game console. Use the Player 1 controller to make menu decisions before the Fastest Finger contest.
3. Read the question at the top of the screen. Then put the four items at the bottom of the screen in proper order by pressing the buttons that correspond to the items.
4. When you have the answers arranged, press the R1 button as fast as you can. The person who selects the correct order first wins the right to sit in the Hot Seat.

LIFELINES

Now you've hit a question you just can't answer and the clock is ticking. Time to use a Lifeline.

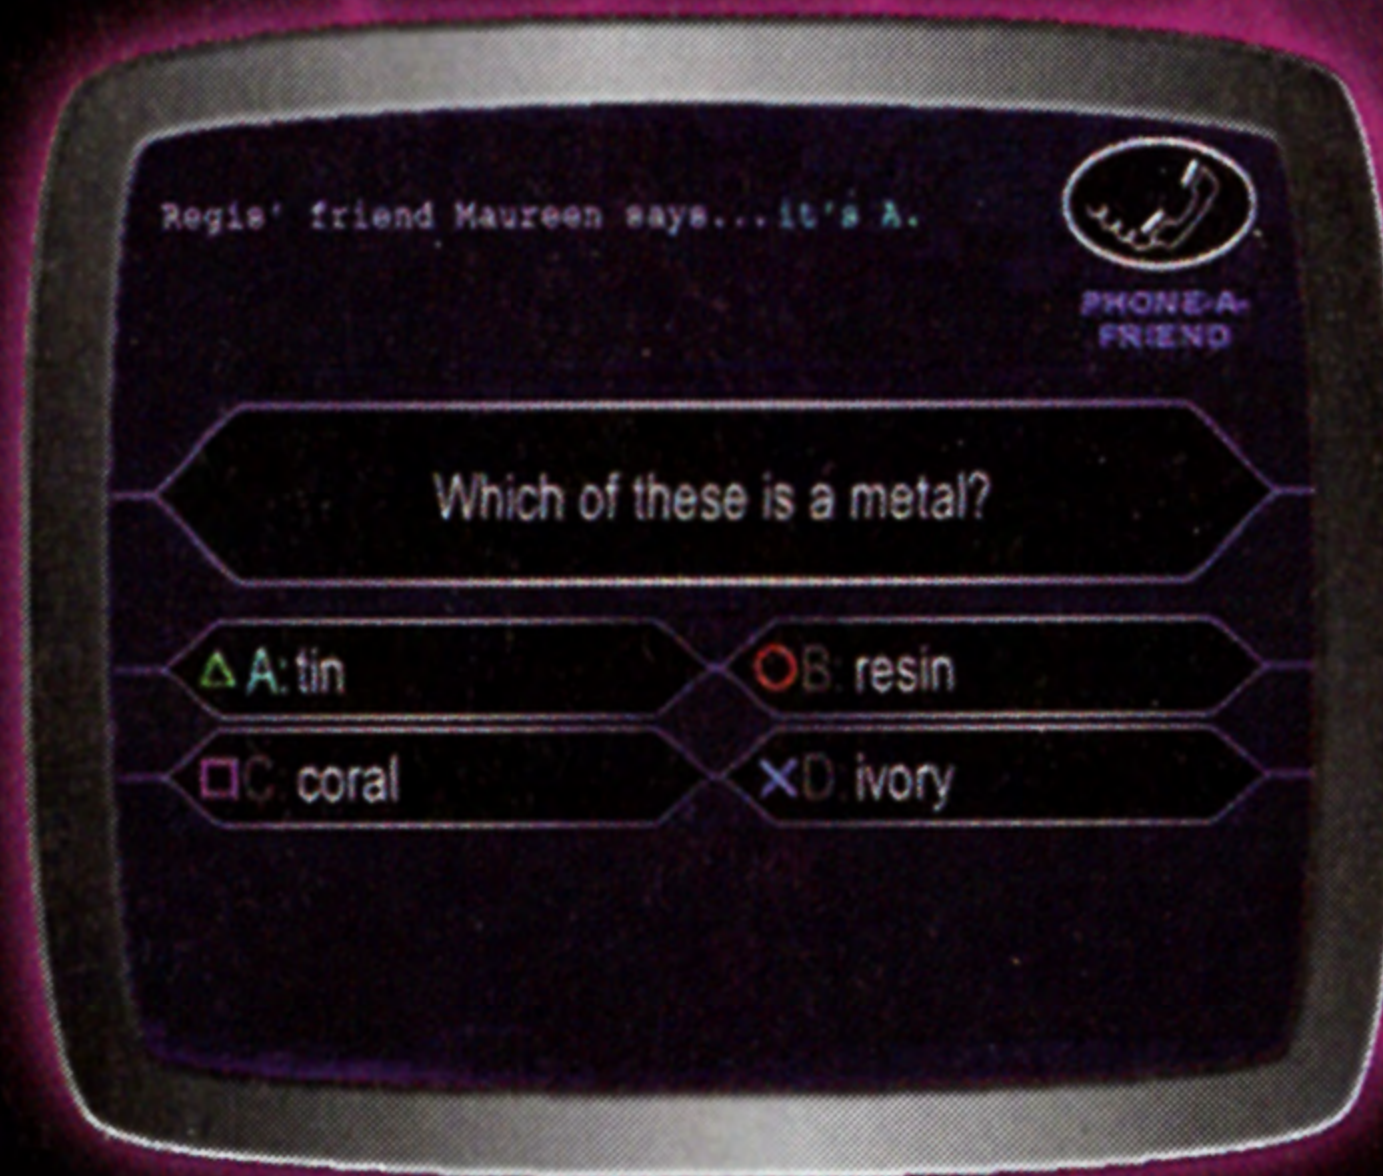

1. Press the R1 button to stop the clock and open the Lifeline options.
2. Select one of the Lifelines by pressing its corresponding button.

Once you have the results of the Lifeline, you have 15 seconds to give your answer.

If you are just totally unsure of the answer, you can use all three Lifelines on one question. But that's it...no more Lifelines for the rest of the game.

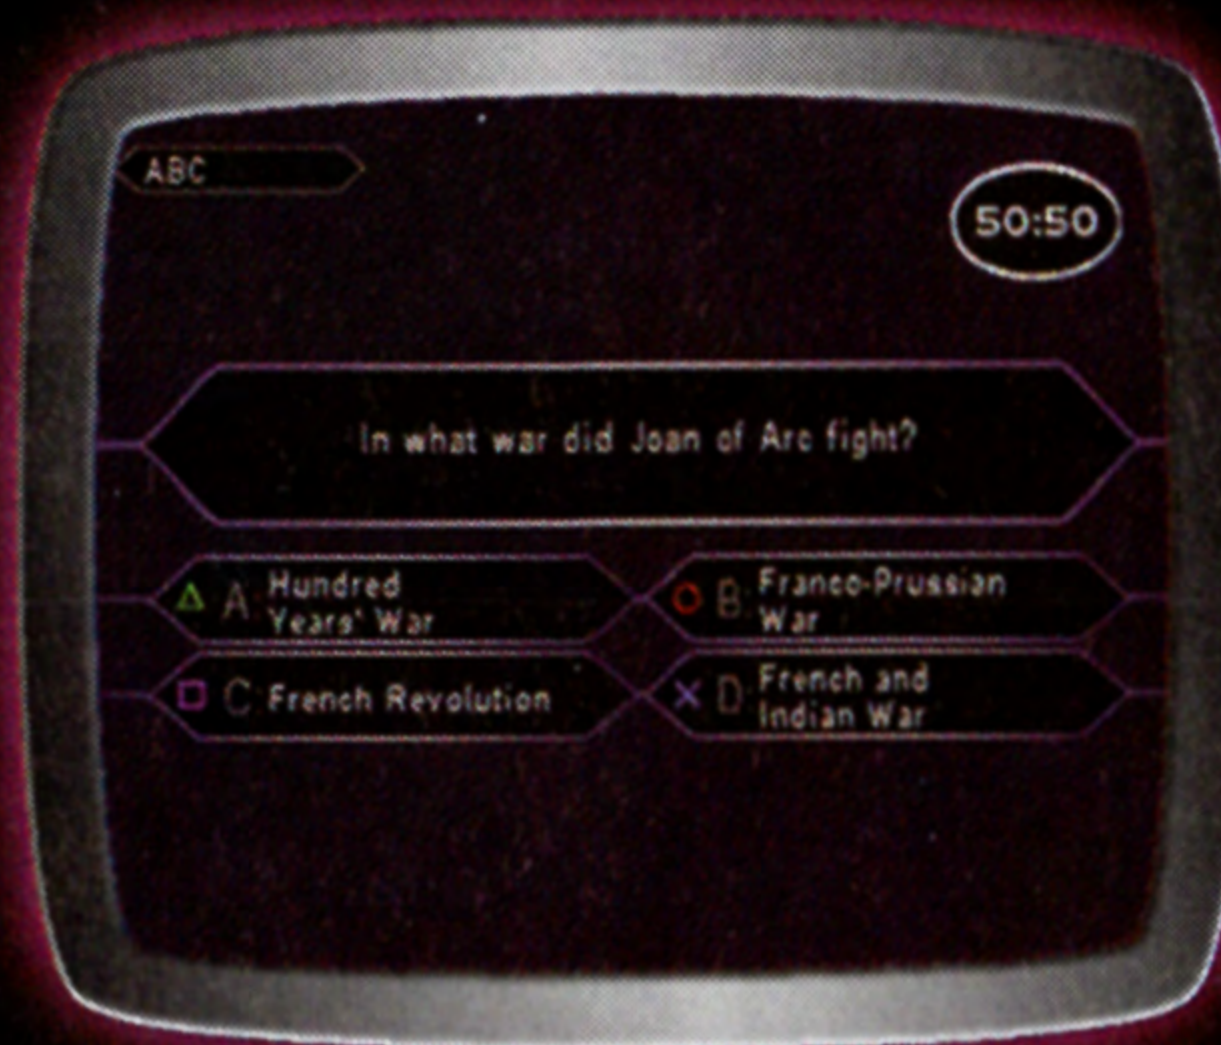

• PHONE A FRIEND (△ BUTTON) •

When you select "Phone A Friend", Regis will connect you to one of his friends who may have the answer. But beware, the friend may sound totally sure of the answer, and be wrong! The final decision is still up to you. The letter of the friend's answer is highlighted in green.

• 50/50 (□ BUTTON) •

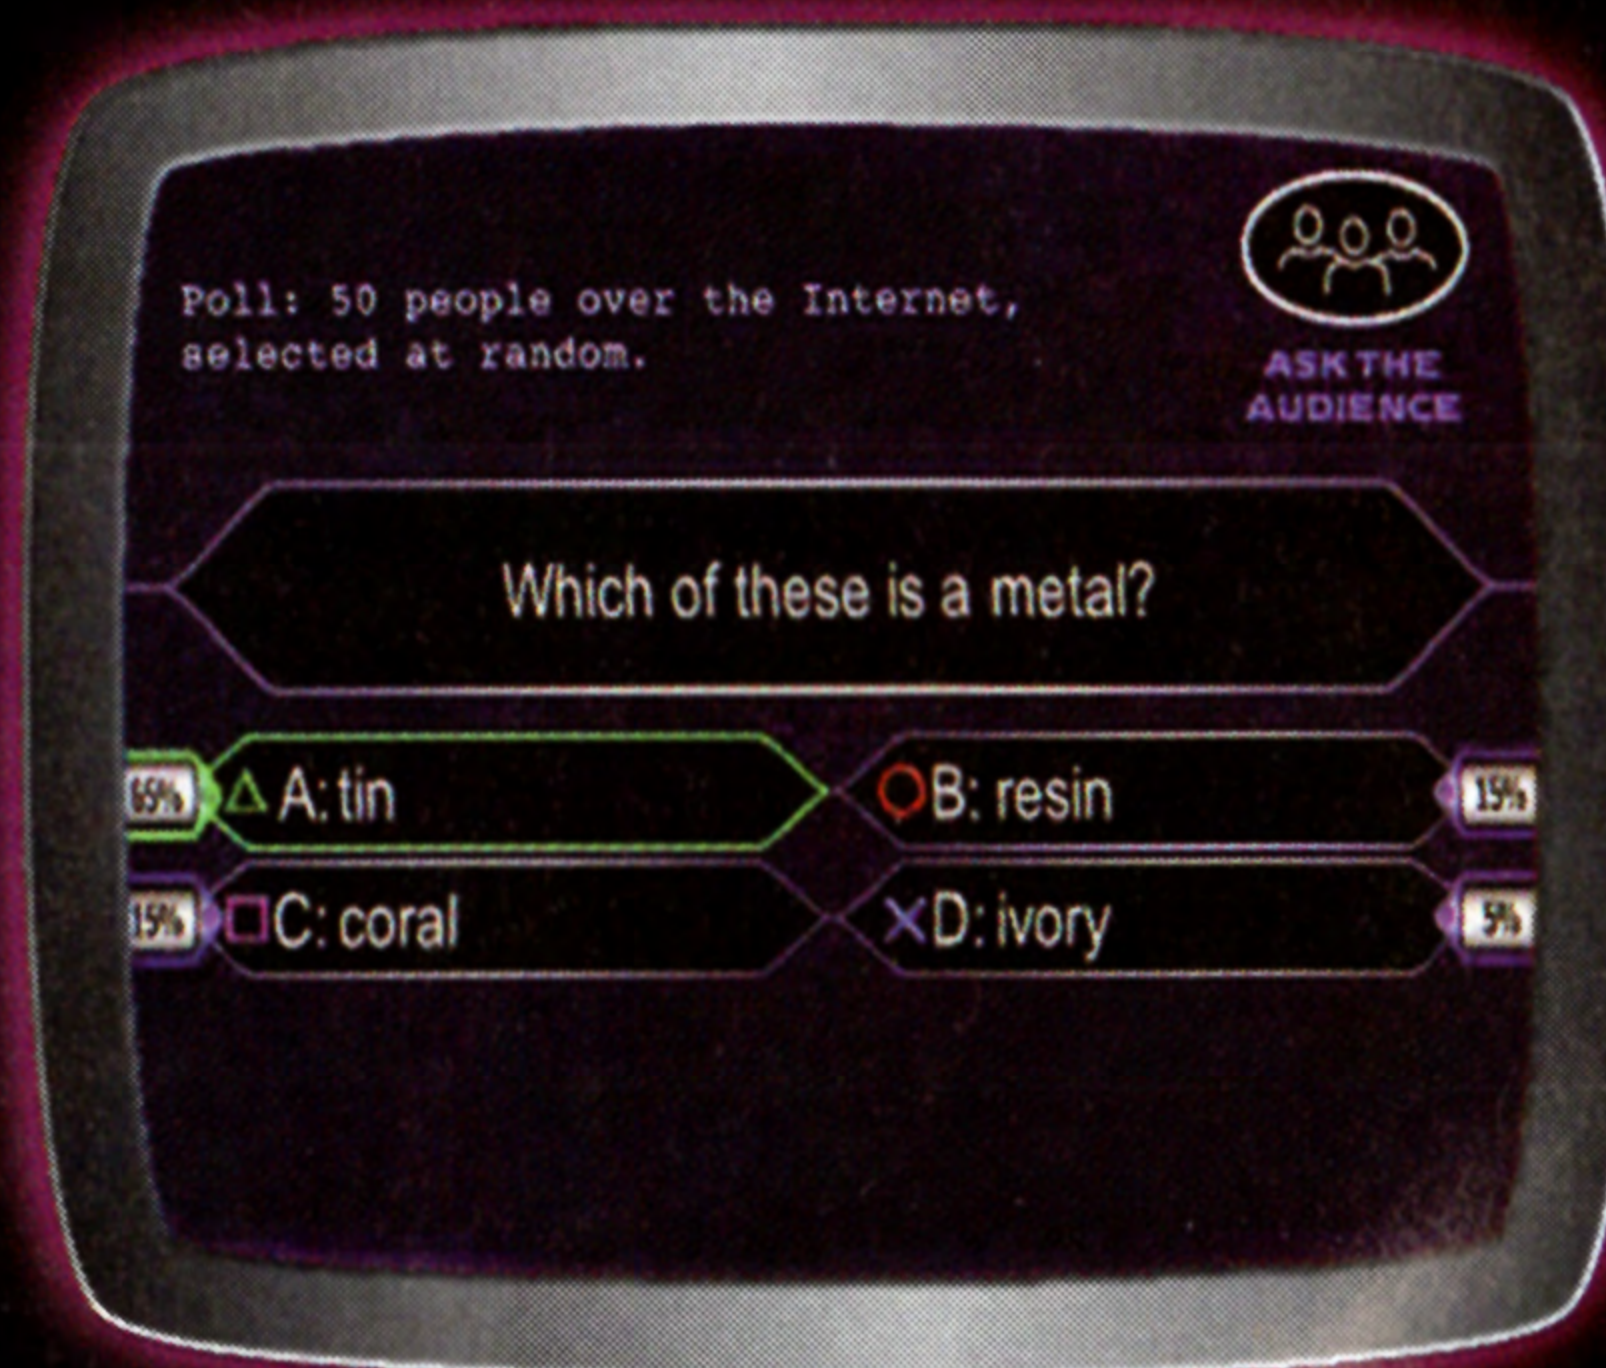

This removes two of the incorrect answers. Maybe you already have the answer down to two possibilities but just can't make a decision. 50/50 might remove one of the answers you are agonizing over and leave you with a clear choice, or maybe not.

• ASK THE AUDIENCE (◎ BUTTON) •

Ask The Audience carries the weight of pure numbers. You poll the audience for the possible correct answer. Each response is shown with its percentage of audience popularity. The answer most popular with the audience will be highlighted in green.

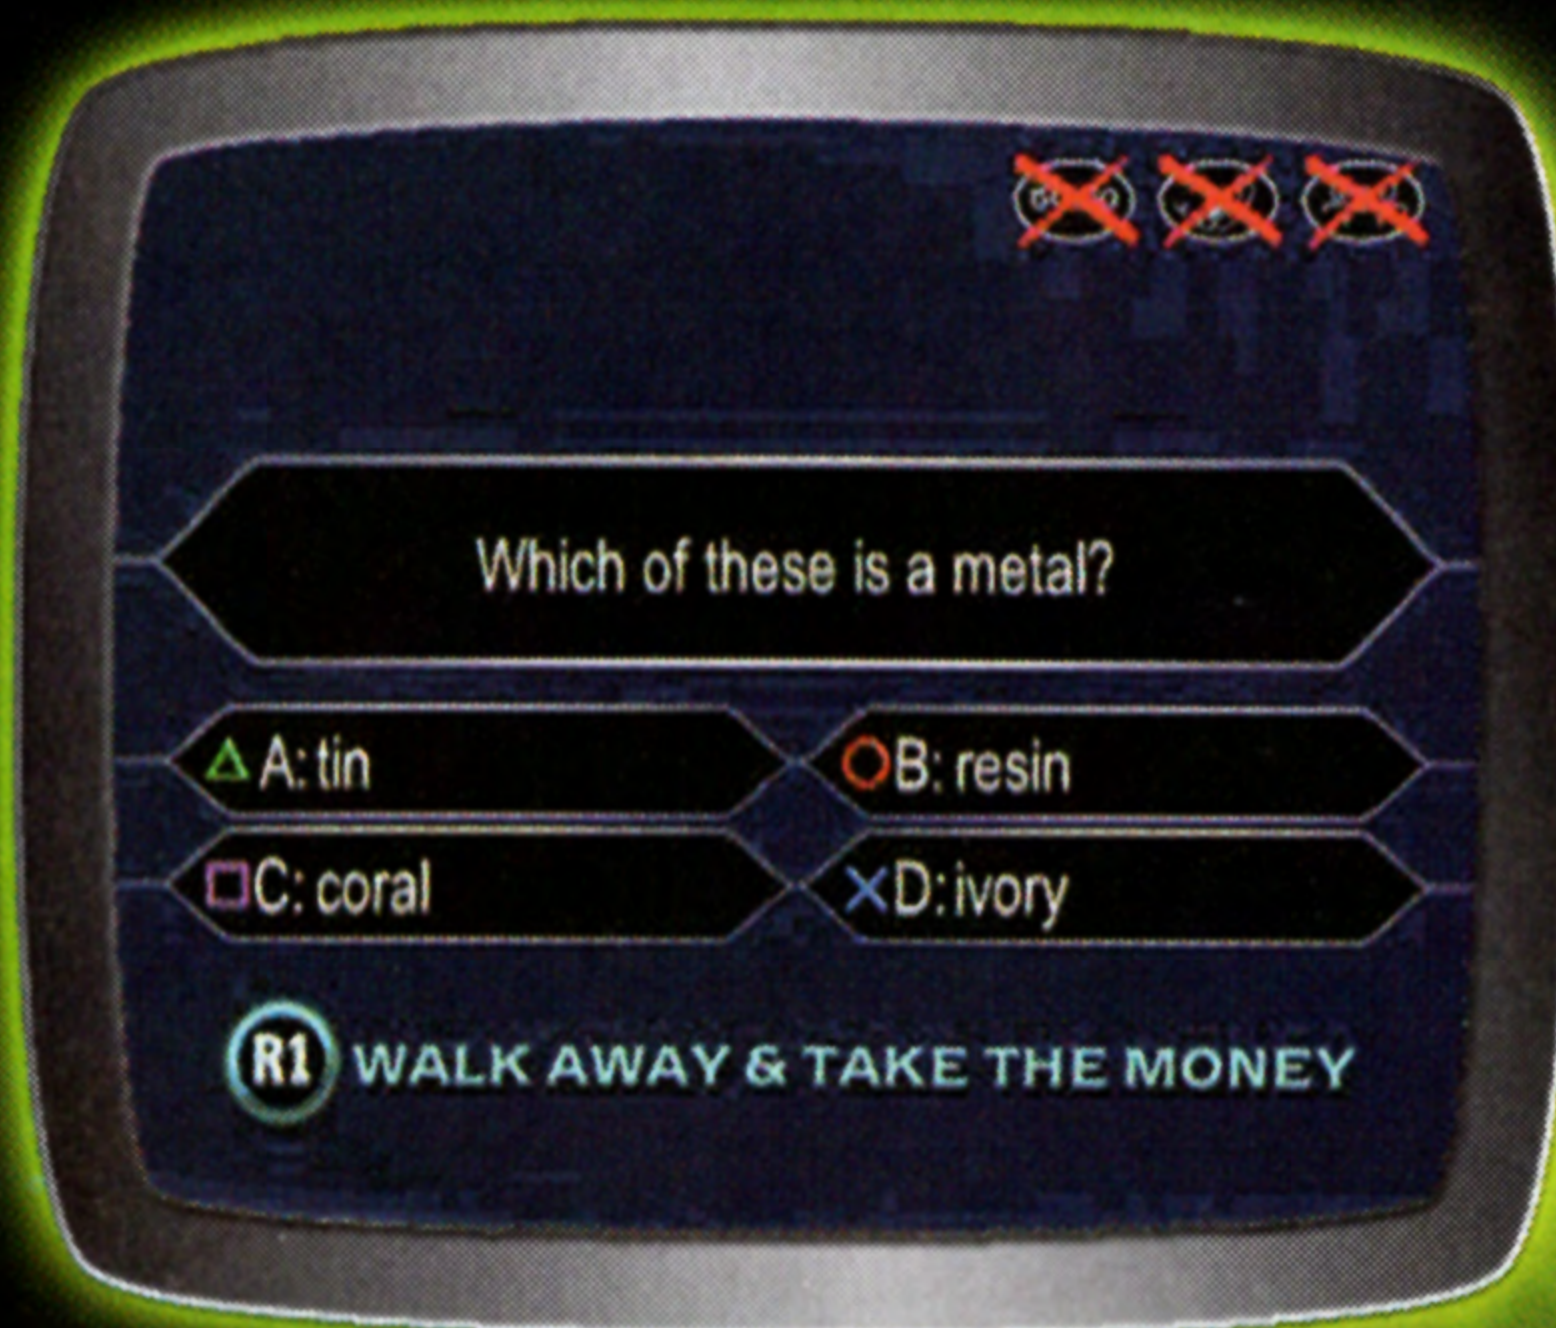

Be careful. The entire audience could be wrong.

WALK AWAY AND TAKE THE MONEY

After you use up all your Lifelines, if you feel that you cannot give the correct answer to a question, you can walk with the money you already have.

Press the R1 button at the prompt and the game is over. If the amount you walk with qualifies for the High Score screen, your name and winnings will appear there.

• PAUSE SCREEN •

Pause the game any time during gameplay by pressing the Start button.

- Adjust game volume by pressing the L1 or R1 button.
- Resume the game where you paused by pressing the  button.
- Restart the game from the beginning by pressing the  button.

• TONIGHT'S LEADERBOARD SCREEN •

Track your Who Wants To Be A Millionaire: 3rd Edition performance on the Tonight's Leaderboard screen that appears after the completion of each game. The top 10 winners and prize money are posted after completing each game.

To play again, press the  button on the Tonight's Leaderboard screen.
