## Important Health Warning About Playing Video Games

### Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions:

- Sit farther from the television screen.
- Use a smaller television screen.
- Play in a well-lit room.
- Do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

## INTRODUCTION

The fate of a young, unsuspecting farm boy changes forever when he discovers a dragon egg in the deep forests of the Spine Mountains. When the dragon Saphira hatches, their destinies unite. Eragon is thrust into a new and dangerous world where enemies lurk at every turn, intent on destroying him before he can take hold of his legacy. Lead Eragon and Saphira down the path of destiny. Help Eragon become...a **DRAGON RIDER**.

## ERAGON GAMEPLAY HUD

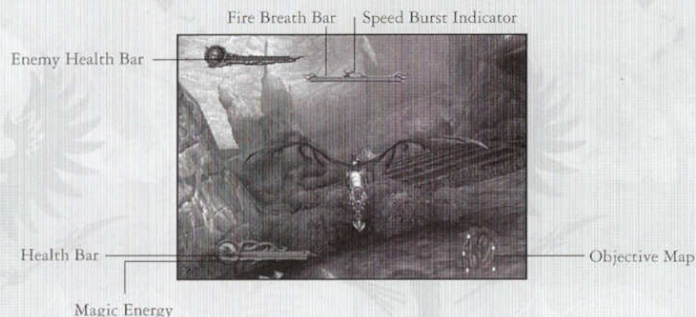

**Health (red bar)** – Indicates the health status of Eragon and Ally character. Maximum health will increase throughout the game as the heroes grow stronger.

**Magic Energy (blue bar, Eragon and Saphira only)** – When this bar is blue, Eragon can cast magic. Once magic is cast, the energy is depleted and the bar will be empty. The bar then turns gray as it replenishes. Magic-casting speed increases throughout the game as Eragon learns the ways of magic.

**Fury Meter (colored bars that extend between hero HUDs)** – Fill this meter with power orbs collected from fallen enemies. Once the meter is full, you can activate Fury Mode.

**Enemy Health Bar** – Shows the remaining health of a Boss enemy.

## Saphira Dragon Flight HUD

**Fire Breath (red bar, top of screen, Dragon Flight levels only)** – When this bar is depleted, Saphira's fire breath is used up. Release the fire breath button to allow the bar to recharge.

**Speed Burst Indicator (small blue gem connected to Fire Breath meter)** – When this indicator turns blue, Saphira is able to activate Speed Burst.

**Objective Map (Urgal Attack! Mission only)** – The objective map displays the location and health of Varden Towers.

**Enemy Health Bar (top left corner of screen)** – Shows the remaining health of a Boss enemy.

## GAMEPLAY INDICATORS

**Current Bow Target** – Shows your current Bow target. Green indicates targetable, gray indicates untargetable and orange indicates an Ally target.

**Skill Shot Target (target gets small)** – Shows your current Skill Shot target. Reticule also starts spinning when Skill Shot is activated. Green indicates targetable, gray indicates untargetable and orange indicates an Ally target. Controller will vibrate if vibration is turned on.

**Saphira Call-In Target** – This target can be activated to call in Saphira for help!

**Magic Target** – Shows Eragon's current Magic target. Green indicates targetable, and gray indicates that Eragon's magic is recharging. The target cannot be used until Eragon's magic energy is fully charged.

**Mission Tally** – Various indicators will show mission-specific goals.

## ITEMS

**Health Orbs** – A small orb restores a small amount of health, while a large orb completely restores health.

**Power Orb** – Collect these to fill your Fury Meter.

**Super Orb** – A Super Orb breaks into many Power Orbs.

**Treasure Chest** – These chests contain either a Health or Super Orb, depending on your need.

**Secret Egg** – Secret Eggs open unlockable content. One of these is hidden in each level.

## CO-OPERATIVE PLAY MODE

Play *Eragon* with another person at any time by inserting a second Xbox 360 Controller into any open controller port and pressing the **START** button. The second player controls Brom, Murtagh or Saphira (during Dragon Flight levels). Press the **START** button and select Drop Out from the Pause Menu at any time to switch the game back to single-player mode.
