### Important Health Warning About Playing Video Games

#### Photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

### STORY

September 1998, Raccoon City, located in the American midwest, fell victim to a large scare outbreak. The cause was a leak of the T-Virus, a biological weapon developed by the international corporation known as Umbrella. People and animals infected by the T-Virus became ravenous zombies who attacked those unaffected. The highly contagious virus swept through Raccoon City with devastating results.

Fearing widespread exposure of the leak, Umbrella deployed the U.S.S. (Umbrella Security Service). Their mission was to destroy any evidence linking Umbrella to the outbreak.

Sensing the irregularity of the situation, the American government deployed its SPEC OPS team into Raccoon City. The SPEC OPS investigation and the U.S.S. mission were on a collision course, guaranteed to bring bloody results.

And so, the secret battle of Raccoon City was about to begin...

## INFECTION

If a player is attacked by a creature, they may become infected with the T-Virus. If you contact the virus and lose all your health, you will become a zombie. Once a zombie, the player becomes uncontrollable. You must either be killed or wait to recover.

\* You can use Antiviral Spray or certain abilities to recover from an infection.

Once infected...

...and the player's health runs out, they will become a zombie and...

...you may have to take out your own teammate.

## BLOOD FRENZY

Players and enemy soldiers who have sustained a large amount of damage will start to bleed, triggering a "Blood Frenzy". Zombies will catch on to the scent of blood and start excitedly attacking.

Cause enemy soldiers to bleed in order to bait zombies into attacking them.

If you are bleeding...

...zombies will be driven into a frenzy.

## COVER

Get close to garbage cans and cars located on the map to use them as cover.

You can use weapons and grenades to attack while taking cover.

## DIVING

You can use the left stick and the A button to dive in various directions.

While diving press to shoot your weapon.

## QUICK DRAW

Hold to equip your handgun. Press the right stick in any direction to automatically shoot at enemies.

You may use to shoot as well.

### MELEE ATTACK

Press the **B** button to perform a melee attack.  
Press the **B** button repeatedly to perform a combo.  
Use the left stick while press the **B** button to direct your melee attack towards any direction.

### TACKLE

While sprinting, press the **B** button to perform a tackle.

Tackles will knock human-sized enemies to the ground. It is an effective way to force your way through a group of zombies.

### BRUTAL KILL

If you've knocked an enemy off-balance with a melee attack, press the **A** button to perform a brutal kill. You will finish the enemy off with one blow, but be careful, as you will be defenseless while performing it.

Press the **V** button while your Ability Gauge is maxed out to perform a brutal kill specific to your character.

\*In addition, this will also use your ability gauge and you will be unable to perform an ability for a short period of time.

### ZOMBIE SHIELD

If you've knocked a zombie off-balance with a melee attack, hold the **B** button to grab the zombie and use them as a shield. This is an effective way to shield yourself from frontal attacks.

Pressing certain buttons while using a zombie shield will result in various actions.

\*If the enemy is human, you will perform a special CQC.

# Multi Play

## CAMPAIGN

If online, you can play a co-op version of the Campaign with other players.

## VERSUS

### TEAM ATTACK

Players split into U.S.S and SPEC OPS teams and try to score points. You earn points by killing creatures and enemy players. The team that either reaches the point limit or has more points when time runs out wins.

### BIOHAZARD

Earn points by retrieving samples of the G-Virus and returning them to your area. The team that reached the point limit first wins.

### HEROES

Players control Hero Characters from various games in the Resident Evil series. The team that kills all of the opposing team's characters wins.

### SURVIVOR

Each team must cooperate to survive until a rescue helicopter arrives. There are a limited number of seats on the rescue helicopter so you may have to outwit your teammates.

## SQUAD SELECTION

Press the **X** button on the Main Menu to display the squad selection screen. You can invite users you've registered as friend from this screen.

## QUICK MATCH

If you select QUICK MATCH, you will automatically be placed in an online game.
